

LOCAL CLINIC HELPS MEN OF ALL AGES!

Michigan Doctors Treat Erectile Dysfunction

DETROIT • At The Male Method, the local Detroit doctors specialize in only one unique, niche area – men's sexual performance, treating men for Erectile Dysfunction who cannot take Viagra®, Levitra® and Cialis® due to medical conditions and adverse side effects.

The doctors offer a proven treatment with over two hundred custom blended prescription medications available to help almost any man regardless of his age or medical history, including men well into their nineties with diabetes, heart conditions, prostate cancer and high blood pressure. All medications are FDA approved and no surgery is involved.

Referred to as "The Gold Standard, Treatment of Choice" by the *International Journal of Impotence Research* and "Most effective non-surgical treatment for ED" by the *American Urological Association*, the treatment allows local doctors to customize a treatment so that patients see immediate results in the office.

The guarantee is simple: "If a patient doesn't respond to the medication on the first visit, there's no charge for the test dose medication or visit." With that guarantee, local patients have nothing to lose.

Actual patients are talking:

"I'm 75 years old and I didn't think anyone could help me, but today I had an erection for the first time in years." - B.O.

"I'm 85 years young and this was the best choice I've ever made. I only wish I had known about this years ago!" - LEONARD W. R.

Patients are assured of utmost privacy and professionalism with private waiting rooms. For more information and to make an appointment, call today!
