STATEMENT OF COMMITMENT TO DEVELOP A COMPREHENSIVE STATEWIDE TRANSFER AGREEMENT

College students today are more mobile than at any time in history. Many are the first in their family to attend college or are place-bound because of family obligations or financial limitations. Students today may attend and earn college credit at more than one institution of higher education, either in-person, through online courses, and early college opportunities such as dual enrollment or Advance Placement courses. Because so many students now earn college credit from multiple sources their unprecedented mobility means we must share the responsibility for their success.

We, the undersigned presidents and chancellors of public institutions of higher education in South Carolina, are committed to creating and sustaining a comprehensive credit transfer process focused on our students. We believe the needs of our students should drive our transfer process.

With our signatures we commit our institutions to work in partnership with the South Carolina Commission on Higher Education's Transfer Leadership Council to develop and sustain a comprehensive transfer process in South Carolina, based on a framework that aligns with the provisions of Proviso 117.135 (2023). We agree to work collaboratively in pursuit of this goal, but also agree each institution has the autonomy to adopt its own admission standards, grading policies, and residency and graduation requirements.
