FOUR SEASONS

SUMMER

Nevada County boasts hot summer days, perfect for a dip in one of the many quality swimming holes along the South Yuba River. If you're more of a water sports enthusiast, there are plenty of lakes to play in whether your joy is kayaking, jet skiing, fishing, or just lying on the sand and soaking up the sun. Summer days are a joy; but oh, those summer nights! Any day of the week there are countless opportunities for entertainment. You can catch a play at one of our theaters, go to a concert at the Center for the Arts or Miners Foundry, or just wander through downtown Nevada City or Grass Valley and enjoy whichever live music act catches your fancy. Not to mention the many fairs, festivals, and farmers markets that occur weekly.

AUTUMN

Autumn in Nevada County is a spectacular sight to behold. With foliage that rivals that of New England; everywhere you turn is a new visual delight. The mild days and cool nights make exploring the towns a pleasure, and for a fun family treat, check out Bierwagen's Pumpkin Patch and Harvest Festival which goes on every day in October. If art is your thing, try the Open Studios Art Tour & Sale. To get into the Halloween spirit, take the Haunted Nevada City historical walking tour, or get a head start on your Christmas shopping at the Thanksgiving Weekend Art Faires.

WINTER

Winter in Nevada County is typically sunny and cold and Grass Valley sits just low enough to get the lovely snow-capped mountain views without the inconvenience of shoveling. Nevada City, however, does get a small accumulation of snow occasionally which turns the darling town even more picturesque.

It is only a 45-minute drive to Donner Summit, and another 15-30 minutes will take you to the Truckee-Lake Tahoe area with cross-country skiing areas, many ski and snowboarding resorts, tubing and sledding areas, and great snowshoeing locations. If you prefer motorized sports, there are places to rent snowmobiles to explore the winter wonderland.

Each year, Downtown Grass Valley hosts Cornish Christmas, and Nevada City puts on Victorian Christmas. In 2015, Penn Valley began a new holiday tradition that features light displays in Western Gateway Park and also has its Cowboy Christmas celebration. Stroll through the streets with old-fashioned carolers in Victorian garb, get some chestnuts right off the fire, and peruse the many items available for sale from our local artisans.

SPRING

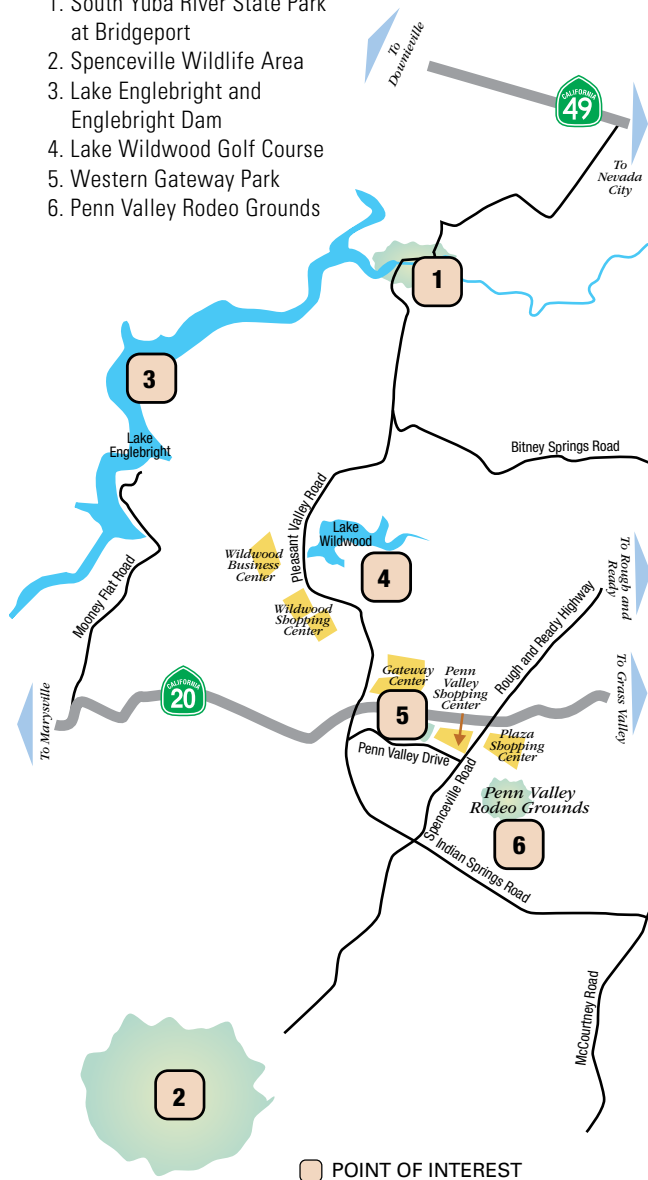

Spring is a riot of color in Nevada County, with many varieties of wildflowers and trees blooming throughout the season, and the redbud, dogwood, and fruit trees flowering everywhere you look. With mild 70-degree days, it's the perfect season to visit Bridgeport at South Yuba State Park; the longest single-span wooden covered bridge still in existence in the US. While you're there, hike the easy Buttermilk Bend Trail for a stunning view of the wildflowers, butterflies, and South Yuba River. If nature's not your thing, stay in town for the Foothills Celebration, an annual wine and art event, or St. Piran's Day Celebration which celebrates Grass Valley's Cornish heritage.

Nevada County— State Cultural Districts

PART OF 14 STATE CULTURAL DISTRICTS

Nevada County is the only rural county in California which is home to two State-designated Cultural Districts. They are part of a small pilot group of districts throughout California!

Grass Valley-Nevada City Cultural District and Truckee Cultural District have been selected as two of California's premier state-designated cultural districts under California Arts Council's Cultural District Program. They join twelve other districts that are launching the innovative new program highlighting thriving cultural diversity and unique artistic identities within California, home to the country's leading creative economy.

A cultural district, as outlined by the program, is a well-defined geographic area with a high concentration of cultural resources and activities. The fourteen districts that comprise the program's first group were selected with variety in mind, intended to help tailor the program to meet the complex needs of a state kaleidoscopic in nature.
