### Did you know?

**Did you know** that the Mayas practiced cosmetic dentistry before Europeans arrived in the New World?

**It's true!** The Mayas of Central America were very concerned about the appearance of their teeth. Besides using inlays of gold and colored stones, they also shaped their teeth by filing them into sharp points. This was to honor their Sun God, Kinich Ahau.

**We've come a long way!** With excellent dental care From Dr. Strong, you will protect your teeth, look great, and feel even better. Keep your beautiful teeth and smile for a lifetime! We enhance people's lives!

# Aquatic Center to hold 'Summer Splash!'

BANDON -- Don't miss the Bandon Aquatic Center's "Summer Splash!" from 2-5 p.m. Saturday, Aug. 19, at the City Park skateboard ramp parking lot.

The Bandon swimming pool organizers are hosting a family event for the community as a way of saying thank you to the many people and businesses who have supported efforts to build a community pool over these many years.

The Summer Splash! event will feature live music provided by Done Deal, free hot-dogs and chips (while they last), raffle prizes, kid's activities and tours of the pool property. Past development board presidents and members have been

invited so they, too, can be acknowledged and thanked for their hard work.

The pool property is immediately adjacent to this area of the City Park. Escorted tours will be conducted by board members. The gorse-free property will be seen in "all its glory," with the pool location delineated, property borders outlined and access roads mapped.

This will be a one-time, not-to-be-missed opportunity for community members to receive and give thanks for the efforts that have brought the Bandon pool development to this point.

# Manipulated photos on display at Library Art Gallery

**BANDON --** The Bandon Library Art Gallery features "Processing the Image: Manipulated Photographs by Brian York" through Sept. 30.

Brian York begins with a photograph, which is then heavily manipulated and processed using PhotoShop and other programs. The piece is then enhanced with digital hand painting and other effects. The result is a textured, complex image that feels like a painting, while retaining some of the qualities of a photograph.

Y o r k ' s

attention to color and detail reflect his excellent instincts for which aspects of the original image to alter or enhance and which to leave intact, as well as what colors to saturate or bleed away, which areas to soften, which to sharpen, in order to create visual tension and emotional impact.

And now through December, the gallery will be displaying a beautiful, handmade quilt that the Bandon Library Friends and Foundation will be raffling off to benefit the library. Tickets are available at the checkout desk.

# Cell towers and wifi hazards to be discussed

**BANDON** — Dr. Martin L. Pall, PhD, renowned retired professor emeritus of biochemistry and medical sciences, Washington State University, will present scientific evidence and medical findings showing how cell towers and Wi-Fi technology are impacting the public's health.

In 2014, the Bandon School District allowed AT&T to install and operate a cell tower on the school campus at the east end of the football field. The school district receives an annual income of \$18,000 from AT&T to lease the space on school property. The cell tower is located approximately 200 feet from Ocean Crest Elementary School. Bandon School District's superintendent, Doug Ardiana, says that he believes that "there is legitimate concern for children who will be in attendance at the school."

Another expert highly regarded for his studies dealing with the health effects of electromagnetic fields, Dr. Samuel Milham, MD, epidemiologist, has documented that people residing up to 500 meters from a cell tower base have increased cancer mortality. Further, Dr. Milham states in an email to Ardiana and John McLaughlin of the City of Bandon Planning Department dated Jan 6, 2017, that, "This technology has no place in schools."

Learn more at a special educational event that will begin at 7 p.m. Saturday, Aug. 19, at The Barn, 1200 11th St. SW, Bandon.

There will also be ongoing educational workshops in the months ahead.
