

North Bend Mainstreet Hosts Open House
for Supporting Local Organizations and Gathering Feedback

By NATE SCHWARTZ
Editor

The ILWU Local 12 Union Hall was the location for the North Bend Main Street Program's most recent event, a community open house. Organizations of all shapes and sizes were invited to table and engage with their neighbors, showing off the wide variety of different businesses, non-profits, etc. that call the city home.

Bay Area Beautification and Operation Rebuild hope were on hand, representing just a couple of the area's 401c non-profits. Broadway Pharmacy was one of the businesses present, showing off the ways they contribute to community health.

Government services and organizations were too. The North Bend Public Library's table explained all that they provide to the community through their programming and available resources, and

the local Coast Guard chapter showed how they keep locals safe on the water.

"The work that we do is for our community, so when we invite them in and we ask them to collaborate on what we're doing, as far as future events or projects, then we're really doing our work for the people as we're supposed to," explained Main Street Community Development Manager Stephanie Wilson.

The Mainstreet Program itself had four tables set up to get direct feedback from citizens as to how they should grow in four specific areas: organization, design, economic vitality, and promotion. Those perusing the open house were asked to write their ideas for each of these areas on big butcher paper, and engage with Main Street representatives.

The 'organization' table, for instance, asked visitors how they could strengthen their

volunteer outreach, and which orgs they should partner with. The 'economic vitality' table asked 'What would make Downtown North Bend more vibrant?'

All of this allows the community to feel engaged in the future of North Bend and know that their voices are essential in steering the ship toward what best serves its residents.

"There's a lot of working parts to National Mainstreet, this is their platform. Each state has a coordinator and then each local program works it how best fits them," explained Wilson. "So, for us we educate the community on what we've been doing and what we plan on doing, because they might not realize how much goes into it. They can come and see it here in person

South Coast Hospice Celebrates
40th Anniversary of Service to the Area

By NATE SCHWARTZ
Editor

After speaking with a number of attendees at South Coast Hospice's 40th anniversary celebration, I was struck by the overwhelming sense of caring that was on display. Each member of the team there took the

time to really engage with me, and share their unique perspective. In an area of healthcare that can seem so heavy, their moods were buoyant and welcoming, exactly what you'd hope a hospice environment would be.

That itself is a testament to why they have been able to

garner the community support needed to maintain service for four decades. Starting as an all-volunteer organization in a donated building, the non-profit has continued to provide end-of-life and palliative care to a huge chunk of the South Coast.

Beyond in-home support and

holistic compassionate care, the organization provides community education, support groups, and has a specially tailored program for the veterans who make up 30% of their patients. Hospice prioritizes the acceptance of death and therefore the value of life, just as much as the actual managing of

patient symptoms. "I think that it's a cliché that gets used too often, but I know it's true in hospice and that is: 'It takes a village'. In a week, we can have ten different staff members interact with one

USDA Farm to School Grants

Dear Editor:
The USDA's new Farm to School grants are more than just funding—they're a chance to transform how children eat and how they think about food. Imagine school cafeterias filled with fresh, local fruits and vegetables, offering meals that are vibrant, delicious, and

entirely plant based.
This is about more than nutrition. It's about teaching kids that what's on their lunch tray can protect their health, safeguard our planet, and show compassion for animals—all at once. What better legacy could we give the next generation than the knowledge that food can be both kind and powerful?
Farm to School programs don't just connect class-

rooms to local farms; they can set the standard for what compassionate, sustainable eating looks like. If schools seize this moment, students will carry forward the lesson that every meal is a chance to make the world better. That's a change worth fighting for.

Guest Column

By J. MARK POWELL
InsideSources.com

Of all the forgotten tales brought back to life in this column, this one may be the most obscure of all. You'll have to dig deep into the history books to find it. Though forgotten today, it played a critical role in helping decide which nation would control what's now the southeastern United States.
And a single cannon shot determined it.
It started during the tangled international knot that was the War of 1812. While we were battling Britain, Britain was also battling pesky Napoleon on the European continent. The Brits needed all the men they could get for their military. So, in 1814, they revived the Corps of Colonial Marines.
Basically, England extended the following offer to African-American slaves in the southern United States: fight with us, and when the war is over, you can live in freedom in any British possession in North America. Several hundred slaves took the deal and served under

HOLY COW! HISTORY: How One Cannon Shot Changed History

the Union Jack.
In fact, 300 of those Colonial Marines supported the British forces that burned Washington and tried to capture Baltimore before being repulsed at Fort McHenry. The war ended with Gen. Andrew Jackson's spectacular victory in the January 1815 Battle of New Orleans. Which is where things get complicated.
True to their promise, the Brits helped the Colonial Marines as best they could. Although Spain owned Florida, Britain had built a stockade fort on the Apalachicola River in the panhandle. (With Spain busy contending with Napoleon, it couldn't do anything about it.)
Hundreds of Black British veterans and their families settled in and around the fortification, leading to the fort being named Negro Fort. (It was 1815, remember.) The Brits paid off the Colonial Marines, gave them the fort and its 10 cannons, wished them well, and left. It soon became a mecca for runaway slaves and displaced Native Americans.
The war was over, but the American Southeast was still a powder keg waiting to explode. The United States had built Fort Scott up the same river near where modern Alabama, Georgia and Florida connect. Jackson had to keep it supplied.

Going up the Apalachicola River meant violating Spanish sovereignty, and that could trigger a war. Having just come out of a two-year conflict with Britain, that was the last thing Washington wanted.
But Old Hickory didn't mind risking it.
During one supply run, American boats stopped near Negro Fort and sent a party of sailors ashore to fill canteens. The free Blacks and Indians opened fire, killing all but one sailor.
Jackson was furious. He asked Washington for permission to seize the fort. Waiting for a reply wasn't his style, so he decided to attack. An estimated 330 people, including women and children, were gathered inside the fort's earthen walls.
When soldiers of the 4th U.S. Infantry surrounded the stockade, its defenders raised the British flag and a red banner signaling they would fight to the death rather than surrender.
On the afternoon of July 27, 1816, two gunboats took up position for a bombardment. A handful of cannon shots were fired to get the range. Black powder artillery is very loud, and the fort's occupants were understandably terrified.
All the fort's barrels of gunpowder were stacked inside a structure called the powder magazine. The defenders were ready for a fight. Then it happened.
Beginning the bombardment in earnest, a red-hot cannonball scored a direct hit on the magazine, igniting all that gunpowder. A massive explosion ripped the little fort apart, shaking the ground and unleashing a roar that was heard in Pensacola 100 miles away.
For all practical purposes, Negro Fort no longer existed. One amazing shot had determined the battle's outcome.
An American witness wrote, "The explosion was awful, and the scene was horrible beyond description. Our first care, on arriving on the scene, was to rescue and relieve the unfortunate beings who survived the explosion. The war yells of the Indians, the cries and lamentations of the wounded, compelled the soldier to pause in the midst of victory, to drop a tear for the sufferings of his fellow human beings."
Only 50 people in the fort survived. The other 280 were shot, burned or blown apart. No Americans were killed.
There would be more fighting and deaths until the United States gained control of Florida in 1819.
The army quickly built a fort nearby, naming it Fort Gadsden. It saw active military duty until a malaria outbreak forced the Confederates to abandon it in

1863 during the Civil War.
Florida maintains the fallen fort as a state historic site. It's now a peaceful place on a riverbank with nothing but a few markers and the eroded remains of the later fort's walls to remind visitors of the horror that happened there nearly 210 years earlier, all due to one single, amazing cannon shot.

North Bend adds five members to Hall of Fame

North Bend High School added five members to its hall of fame in a reception before the Bulldogs' football game against Sweet Home on Friday night.

This year's class included North Bend graduates Richard Moe (Class of 1965), Bill Lucero (Class of 1981), Brian Wuethrich (Class of 2004) and Ally Romanko Sletten (Class of 2006) and John Gunther, the former sports editor of The World.

Moe was honored posthumously (he died in 2024). He followed his high school years in North Bend and a brief stint at Lewis and Clark College with a long career in Japan, including becoming the first tenured professor at Komazawa University who was not Japanese. He is most noted for developing a style of learning to help people learn foreign languages called the Timed Paired Practice and was president of RAM Corporation, a prestigious Japanese company that created an online version of Time Paired Practice.

Lucero was a three-sport athlete for the Bulldogs, in football, basketball and tennis, and later returned to North Bend where he started as a teacher and later became an administrator, including a long tenure as principal at the high school. He was instrumental in the school adding its dual credit program with Southwestern Oregon Community College to help North Bend students get an early start to college. He spoke fondly of his fellow administrators and how they always treated leading the school as a team project, not an individual one.

Wuethrich was a football

and track and field star for the Bulldogs. He was an all-state lineman in football who played in the Oregon East-West Shrine Game and set school records in all three throwing events in track and field, winning a state title in the javelin. He went on to compete in track and field in college and said he was grateful for all his coaches at North Bend, including football coach Bill Masei and track and field coaches Steve Greif and Jake Smith. He said he considers the hall of fame induction an honor he shares with his teammates and coaches.

Romanko was a cross country and track and field star for the Bulldogs, earning all-state honors in cross country as a

junior and senior and placing in three events at the state meet her junior and senior years, including winning the state title in the pole vault as a senior. She still holds school records for the 400 and 800 meters and 300-meter hurdles. She went on to compete for the Air Force Academy and become a fighter pilot, logging more than 2,000 flying hours in the F-16 fighter jet and F-35 stealth fighter jet. She also became a flight trainer for the Air Force. She credited her time training in North Bend, especially for the grueling 800, for making the mentally demanding Air Force training easier and spoke fondly of the community's support of runners in the Bay Area.

Gunther, who graduated from Coquille High School in 1988, was dubbed an honorary Bulldog for his many years covering North Bend sports, as well as those of other South Coast schools. He spent more than 25 years as sports editor during his nearly 30-year career as a full-time writer for The World and said the work, which included a lot of long hours and late nights, was a labor of love because he wanted to do his best highlighting the accomplishments of the teams and athletes in the area.

This was the 24th class for the North Bend Hall of Fame, which was created in 2000. No ceremonies were held during the pandemic in 2020 and 2021.

Run Whiskey Run is Oct. 11

JOHN GUNTHER
For the World

The annual Run Whiskey Run will be held on Saturday, Oct. 11, on the Whiskey Run mountain bike trail system near Bandon. The event starts at the main mountain bike staging area on Whiskey Run Road, about 2 miles off U.S. Highway 101.

The event includes three races. The 1.5-mile Shirley Temple is a short, challenging loop that is good for walkers and adventurous families wishing to try out trail running.

The 5-mile Whiskey Ginger is a five-mile loop on premium trails.

The 10-mile Double Shoot includes two trips around the loop of the Whiskey Ginger.

Because the courses are mountain bike trails, they are not appropriate for strollers, and because they are single-track trails, participants are asked to not bring their dogs.

The Double Shot starts at 9 a.m., with the Whiskey Ginger at 9:30 and the Shirley Temple at 9:45.

The entry fee is \$15 for members of the South Coast Running Club who sign up early and \$25 for nonmembers who use early registration. The fees increase by \$10 on race day.

The fee for students is \$5.

For more information about the race or the South Coast Running Club or to sign up for the run or become a club member, visit www.southcoastrunningclub.org.

Bandon's football team had its fourth straight dominant win to open the season Friday, tuning up for league play with a 46-7 road win over Illinois Valley.

The Tigers have outscored their opponents 195-19 this season heading into their game this Friday at Glide, which is off to its own 4-0 start with similarly dominant scores. The Wildcats have outscored their foes 190-33.

MYRTLE POINT 74, WALDPOR 0: The Bobcats won their third straight in their final tuneup before league play with the road victory. Myrtle Point, now 3-1, hosts Gold Beach on Friday in its league opener. The Panthers are 4-1 and coming off a 52-28 win at Rogue River on Friday.

Bandon is sixth, Myrtle Point eighth and Glide 10th in the most recent Class 2A coaches poll. The league's fifth team, Oakland, is third, though the Oakers are just 2-2 after a 42-6 loss to Lost River on Friday.

SWEET HOME 32, NORTH BEND 13: The Huskies spoiled the Bulldogs' home opener in North Bend's Hall of Fame game on Friday.

The Bulldogs lost their third in a row in their final tuneup before opening league play. North Bend is at Ashland in its league opener on Friday.

POWERS 52, NORTH LAKE 26: The Cruisers improved to 2-0 in league play with their home win on Friday. Powers hosts McKenzie in another league game this Friday before a week off. Powers was 10th and North Lake eighth in the most recent coaches poll for the six-player ranks.

Coquille opens league play at home Friday against Brookings-Harbor.

TRIANGLE LAKE 55, REEDSPORT 12: The Brave, playing an independent sched-

ule, lost for the second straight week.

This week, Reedsport will go for its first win when it hosts C.S. Lewis Academy.

MARSHFIELD BYE: Marshfield had its bye week after opening the season with four straight wins.

The Bulldogs host Mazama on Friday to open league play before their final home game a week later against Ashland, which will serve as both homecoming and senior night.

In Marshfield's 41-14 win over Junction City the week before its bye, Enoch Niblett completed 15 of 19 passes for 250 yards and four touchdowns — all to different receivers — and also ran for two scores.

Marshfield was sixth in the most recent Class 4A coaches poll.

VOLLEYBALL SKY-EM LEAGUE: Marshfield swept rival North Bend to open league play, 25-23, 25-15, 25-16. The Pirates followed up that win by topping host Cottage Grove, 25-15, 25-10, 25-20. FAR WEST LEAGUE: Coquille opened league play with a pair of wins, including edging Douglas on the road 25-23, 26-24, 25-23, avenging an earlier tournament loss to the Trojans, who were sixth in the Class 3A coaches poll. Coquille beat Siu-slaw 3-1 in their second league match and this week host Glide on Tuesday and visit Sutherlin on Thursday.

SUNSET CONFERENCE: Myrtle Point continued its perfect run through league play with a pair of victories, sweep-

This week, the Bobcats host Oakland on Tuesday and Reedsport on Thursday and play in the South Umpqua tournament on Saturday. Bandon is at Gold Beach on Tuesday and Oakland on Thursday and also will be in the South Umpqua event. Reedsport hosts Illinois Valley on Tuesday.

SKYLINE LEAGUE: Powers beat Glendale 25-11, 14-25, 25-21, 26-24 to improve to 4-1 in league play. The Cruisers also beat Days Creek 25-19, 25-13, 25-10, and this week host Elkton on Tuesday.

Pacific fell to North Douglas, 25-10, 25-4, 25-7 and still is seeking its first league win.

GIRLS SOCCER SKY-EM LEAGUE: North Bend opened the league season with a 4-0 win over rival Marshfield at Pete Susick Stadium last week.

The Bulldogs were at Junction City for their only match this week (results were not available) and host Cottage Grove next Monday, followed by a trip to Marist Catholic on Wednesday. All league matches this year are on Mondays and Wednesdays.

Marshfield was at Cottage Grove on Monday and is at Marist Catholic on Wednesday. The Pirates have a nonleague match at South Umpqua next Monday and are at Junction City next Wednesday.

CLASS 3A-2A-1A DISTRICT 4: The combined Coquille-Myrtle Point squad split its matches last week, losing at home to Douglas 3-1 and winning at Glide 3-2. The DevilCats, 3-2 in league play, host Illinois Valley on Tuesday and play Lakeview on Thursday at a neutral site in Klamath Falls.

Next Tuesday they have another neutral-site match against Lost River at North Valley High School.

BOYS SOCCER SKY-EM LEAGUE: Marshfield beat rival North Bend 3-1 in the league opener between the schools last week.

The Pirates were at Cottage Grove on Monday and are at Marist Catholic on Wednesday. They host Hidden Valley for a nonleague game Saturday and host Junction City next Wednesday.

Glide scored 25 points and Bandon 41.

Montiel starts for Raiders

Former Marshfield High School standout Dom Montiel is the starting quarterback at Southern Oregon University this fall.

Montiel transferred to SOU after three seasons at Oregon State University, a program he joined as a walk-on out of high school after leading the Pirates to the state title his senior season.

The Raiders are 1-3 overall after losing to Dakota State 11-10 on a field goal in the final 15 seconds on Saturday at Madison, S.D.

Montiel completed 17 of 29 passes against the Trojans, for 184 yards.

Earlier this season, he passed for 346 yards and four touchdowns in a 59-0 win over Simpson College, passed for 290 yards in a 27-7 loss to NCAA Division II foe Western Oregon and passed for 280 yards and two scores in a 37-14 loss to Montana Tech.

The Raiders have been without one of their best weapons, All-American running back Gunner Yates from Coquille, for most of the season due to an injury. Yates did score a touchdown in the win over Simpson.

Re-opened: U.S. 101 was closed nearly 40 hours for the replacement of a failing culvert at Bearhead Mountain Lane, about six miles south of Bandon, Oregon. Prime Contractor Farline Bridge, Inc. and the Oregon Department of Transportation reopened the highway at 12:20 p.m. on Sunday, Sept. 21, 2025, about eight hours ahead of schedule.

Construction on U.S. 101 at Bearhead Mountain Lane

At 8:51 a.m. on Sept. 20, 2025, almost nine hours after U.S. 101 was closed for the weekend, staff for the Oregon Department of Transportation and prime contractor Farline Bridge, Inc. examine the rock that is being placed on the new culvert along U.S. 101 at Bearhead Mountain

Lane. This work was part of an ODOT project to replace a failing culvert along U.S. 101, about six miles south of Bandon. Nearly done: U.S. 101 culvert construction at Bearhead Mountain Lane. The Oregon Department of Transportation and prime contractor Farline Bridge, Inc. are working together to replace a failing culvert that sits about 20 feet below the road surface of U.S. Highway 101 at Bearhead Mountain Lane, about six miles south of Bandon. Night work: At 3:31 a.m. on Sept. 20, 2025, about six hours after U.S. 101 was closed for the weekend, workers for prime contractor Farline Bridge, Inc. lift the second of three pipe segments into place along U.S. 101 at Bearhead Mountain Lane. U.S. 101 Bearhead Mountain culvert replacement complete Press Release U.S. 101 is now open. The highway had been closed nearly 40 hours at Bearhead Mountain Lane, about six miles south of Bandon. The highway was opened at 12:20 p.m. on Sunday, about eight hours ahead of schedule. For the next 2-3 weeks, drivers can expect lane closures with flaggers through the work zone as the contractor paves the roadway and finishes work. Most delays will be brief. This work was part of an Oregon Department of Transportation project to replace a failing culvert along U.S. 101, about six miles south of Bandon. During the previous two weeks, the contractor had excavated the northbound travel lane and placed one of three segments of pipe. The project replaced the existing 2-foot diameter culvert, which failed during a high water event in December 2024, with an 11-foot wide pipe. Construction on the six-week project began on Sept. 9, 2025, with the contractor excavating the northbound lane, installing the first section of pipe and building a wing wall at the east end of the culvert. The first part of the project was completed ahead of schedule and now travelers will have to contend with only minor delays as there will be one-lane traffic for the next several weeks while the rest of the repairs are completed.

New businesses coming in, new events coming on, different ways of getting people to know more about North Bend.” Main Street provides help to businesses and local orgs with things like grant applications and historic designations, while also providing promotion opportunities like the popular Sip-N-Stroll events (the next of which is coming up on October 10). If you’ve attended a community event around North Bend, or visited one of the businesses downtown, chances are you’ve benefited from their efforts. “We’re very proud of what we’ve accomplished, but what we’ve accomplished isn’t just for North Bend Main Street, it’s for all of North Bend. PUBLIC NOTICE
FEMA DR-4881-OR
The Federal Emergency Management Agency (FEMA) hereby gives notice to the public of its intent to reimburse eligible applicants under the Public Assistance (PA) Program for eligible costs to repair and/or replace infrastructure and facilities damaged by Storms, Flooding, Landslides, and Mudslides (FEMA DR-4881-OR) occurring from March 13 to March 20, 2025. This notice applies to the PA Program implemented under the authority of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. §§ 5121-5207. Under the major disaster declaration FEMA DR-4881-OR signed by the President on July 22, 2025, Coos, Curry, and Douglas counties have been designated as adversely affected by this major disaster and are eligible for PA. As of August 28, 2025, Josephine County has also been designated as eligible for PA. Additional counties may be subsequently designated. Presidential Executive Orders 11988 and 11990 require that all federal actions (including federal awards of financial assistance) in or affecting the floodplain or wetlands be reviewed for opportunities to relocate, and evaluated for social, economic, historical, environmental, legal and safety considerations. Where there is no opportunity to relocate, FEMA is required to undertake a detailed review to determine what measures can be taken to minimize future damages. The public is invited to participate in the process of identifying alternatives and analyzing their impacts through this notification. The regulations at 44 C.F.R. Part 9 set forth the FEMA policy, procedure, and responsibilities for implementing Executive Orders 11988 and 11990. Certain actions are totally excluded from being covered by 44 C.F.R. Part 9, such as certain emergency protective measures necessary to save lives and protect property and public health. In addition, FEMA has determined that there are no alternatives to relocate certain facilities that occur within the floodplain and/or wetland. These facilities must meet all of the following criteria: 1) FEMA's estimate of the cost of repairs is less than 50-percent of the cost to replace the entire facility, and is less than the minimal cost

999Legal Notices

threshold (currently \$364,000); 2) the facility is not located in a floodway; 3) the facility has not sustained major structural damage in a previous presidentially declared flooding disaster or emergency; and 4) the facility is not critical (e.g., the facility is not a hospital, generating plant, emergency operations center, or a facility that contains dangerous materials). FEMA intends to provide grant assistance for the restoration of these facilities to their pre-disaster condition, and where applicable, provide assistance to mitigate the effects of future hazards. For routine activities, this will be the only public notice provided. For those actions not excluded from 44 C.F.R. Part 9, FEMA will identify and evaluate practicable alternatives to carrying out a proposed action in the wetlands or floodplain and use social, economic, historical, environmental, legal, and safety factors when analyzing the practicability of the alternatives. Where there is no practicable alternative, FEMA will undertake a detailed review to determine what measures can be taken to minimize potential harm to lives and risk from flooding, the potential adverse impacts the action may have on others, and the potential adverse impact the action may have on floodplain and wetland values. The public is invited to participate in the process of identifying alternatives and analyzing their impacts. Other assistance projects will undergo more detailed review, including an evaluation of practicable alternatives and FEMA may publish subsequent public notices regarding such projects as necessary as more information becomes available. For most in-kind facility restoration and associated minor hazard mitigation measures, this will be the only public notice provided. Other activities that affect wetland areas or floodplains may be required to undergo more detailed review, including study of alternate locations. Subsequent public notices regarding such projects will be published, as necessary, as more specific information becomes available. Some of the activities for which FEMA provides assistance may affect historic properties, may be located in or affect wetland areas or the 1% annual chance (base or 100-year) floodplain, and/or may involve critical actions within the 0.2% annual chance (500-year) floodplain. In those cases, FEMA must comply with Executive Order 11988, Floodplain Management; Executive Order 11990, Protection of Wetlands; the National Historic Preservation Act of 1966, (54 U.S.C. § 300101 et seq.) ("NHPA"); and the implementing regulations at 44 C.F.R. Part 9 (Floodplain Management and Protection of Wetlands) and 36 C.F.R. Part 800 (Protection of Historic Properties). The executive orders, NHPA, and/or regulations require FEMA to provide public notice for certain activities as part of approving the award of assistance for specific projects. Section 106 of the NHPA requires FEMA to consider the effects of its activities (known as "undertakings") on any historic property and to afford the Advisory Council on Historic Preservation an opportunity to comment on such projects before the expenditure of any federal funds. A federal assistance project is an "undertaking" for the purposes of the NHPA and a historic property is any property that is included in, or eligible for inclusion in, the National Register of Historic Places. For historic properties that will not be adversely affected by FEMA's undertaking, this will be the only public notice. It will also be the only public notice if the work is an immediate rescue and salvage operation to preserve life and property (36 C.F.R. § 800.12(d)). FEMA may, for other projects, provide additional public notices if a proposed FEMA undertaking would adversely affect a historic property. As noted, this may serve as the only public notice regarding some of the above-described actions under PA. Interested persons may obtain information about these actions or a specific project by writing to the Federal Emergency Management Agency Region 10 office, 130 228th Street SW, Bothell, Washington 98021-9796 or by email to FEMA-R10-EHP-Comments@fema.dhs.gov. Comments should be sent in writing to John Harrison, Federal Coordinating Officer, at the above address within 15 days of the date of this notice. 9/23/2025, World, 418508

Sturdivant Park Playground Grand Opening

City Staff prepare to cut the ribbon: (l to r) Coquille City Councilor & Parks Committee Chair John Cooper, Coquille Public Works Director Mark Denning, Coquille Parks Committee Member Tina Hallmark, and Coquille City Mayor Sam Flaherty.

FROM THE CITY OF COQUILLE

Coquille Valley Elementary first graders and kindergarteners were bussed to the Sturdivant Park Playground Grand Opening September 18th. Snacks were provided and the kids got to see the ceremonial ribbon cut by Tina Hallmark who had spearheaded a lot of the planning and coordination of the park. Once the playground was open, the kids exploded onto the playground. Cries of “best day ever” resounded as joyful laughter permeated the air.

The Sturdivant Playground was the result of a grant from the Oregon State Parks and the hard work of Coquille Parks Committee Member Tina Hallmark, Coquille Public Works Director Mark Denning, Coquille City Councilor and Parks Committee John Cooper and Coquille City Mayor Sam Flaherty who were all present to officiate the ceremony.

Other major contributors were Coquille Rotary, Knife River and USA Concrete Pumping.

Notably the playground was completed a week prior and as soon as the caution fencing was taken down, the park has been quite busy with kid fun.

patient and family,” described Executive Director Kevin Garvey. “The extension of ‘it takes a village’ is the rest of the people in this room, that are beyond our organization and in the community.”
That extension of community was obvious throughout the celebration. Nine different businesses and organizations donated prizes for drawings; five different local restaurants provided refreshments. It only makes sense that the community would be just as much a part of the celebrations as the operations over the last 40 years.
“There have been a lot of changes in this community, but one thing has

been constant: That I’ve never felt that hospice has fell short of what’s expected and what our charge is,” said Medical Director Dr. Dallas Carter to the crowd in attendance. “I think that hospice has been able to, all through this time, basically do what we set out to do, provide high quality end-of-life care.”
That continuity has been helped by long-time volunteers that have helped steer the organization, like Linda Furman Grile, the original executive director. She couldn’t be in attendance, but was spoken of with reverence by those who were. She was still able to make her voice heard through Jane Blake, a hospice volunteer of 41 years and board member, who read a statement from her.

“After meeting the wonderful volunteers, my heart was 100% in. In 1985, our dream be a reality. We accomplished the opening of South Coast Hospice, a community-based program,” wrote Furman Grile. “Long story short, I was blessed to be offered the CEO position 3 or 4 years later, and at 71 years-old I retired as the first director of the program.”
“Many people asked, ‘how can you work with people that are dying?’ For me, it was one of my life’s greatest privileges. Mainly because we could help people focus on living, not dying, and I loved my job.”
That is the crux of what hospice care is all about: making the most of the time you are given. That ethos extends

into the organization’s constant need for volunteers. There’s a lot that goes into making the operation run. Not every volunteer is expected to have the temperament needed for direct patient support and there is so much more to help with.
South Coast Hospice runs their thrift store on Meade and Virginia in North Bend which helps

buoy their operations, and provides and alternate opportunity for those who want to help: either by just shopping, donating goods, or lending a hand. There are also loads of office-based volunteer duties with which help is always welcome.
“The best way to get involved as a volunteer is to just be open, to ask questions. Be willing to

be of service and just go for the ride. You won’t look back once you start,” said Volunteer Coordinator Amy Basil.
To learn more and get involved in what has become a fixture of the community, you can visit South Coast Hospice’s website: SCHospice.org

As I See It

By Mary Schamehorn

The headline on the Oct. 19, 1922, Western World reads: “Big Fire-proof Garage Next Building Project.”

“Another substantial building project (first photo) is announced for Bandon. This time it means a modern fire-proof two-story garage building at the corner of Wall street, First street and Bandon avenue, at present occupied by Whitsett’s Service Station.

“The building plan is made public simultaneously with the sale of Whitsett’s station by S.G. Whitsett and Son to Ed Capps of Denmark. Mr. Capps took possession Saturday.

“Mr. Capps (pictured on right with Gov. Martin, center, a few days after the Bandon Fire) has also purchased a half interest in the lot from C.Y. Lowe. He and Mr. Lowe will erect the building on equal shares.” (Mr. Capps was married to C. Y. Lowe’s daughter, Maud.) He and Maud had one son, Edgar, who with his wife Mary Boice Capps, had three children, Emily, Bruce and Maud of Bandon.

“While plans have not yet been drawn for the new building, it has been decided that it should cover the entire lot which extends 157 feet on Wall street, 100 feet or more on Bandon avenue, about 100 feet along the Oregon avenue hill (that leads up to the Catholic church) and an equal distance on the fourth side. The building will have two stories and will be constructed of either concrete or tile. In either case it will be fireproof. Mr. Capps is a young man of ability who for several years past has successfully conducted a dairy business in northern Curry county. He intends to give up his dairy business and devote his time to his new venture.”

In spite of efforts to make the building fire-proof, it was destroyed in the Fire of 1936, and the third picture shows Ed Capps (then the mayor) digging through the

remains of the building, which was located across from what today is Bandon Fisheries Warehouse.

It was disturbing to learn Sunday that over the weekend, there were two break-ins at the football concession stand on Ninth Street.

“This is really disheartening. We are a small, but mighty, group of volunteers and in our opinion these people are stealing from the whole community as we fundraise in order to offer this fundraising opportunity for teams,” said a spokesperson for the Bandon Booster Club. “We have filed a police report and just ask that if you know anything about this, please let us know.”

I wonder if the same person or people were the ones responsible for vandalizing the grounds and property of the Bandon Youth Center less than two weeks ago, a block away. The vandals left their calling card by spray painting the words “Don’t f... with Nick @ Night” on the wooden fence.

Some years ago, Bandon had a very active citizen patrol, who used CBs to keep in touch with each other as they patrolled the community at night in unmarked vehicles. They could serve as another set of eyes, aiding the Bandon Police Department. I remember that the late Jackman Hutchens was especially involved in the citizen patrol.

This kind of vandalism is frustrating, since both groups work hard to serve the young people of the community.

A good way to help the booster club would be to attend their annual Gold Rush dessert auction and fundraiser, set for Saturday, Oct. 18, at the Barn Community Center at 5. Tickets are available from any varsity coach or Briana Hutchens at Beauty Unleashed on Highway 101. A table for 8 is \$250.

It was good to receive a press release Sunday night, Sept. 21, from ODOT explaining that the highway six miles south of Bandon, which had been closed since 9 p.m. Friday, Sept 19, had reopened early, at 1 p.m., to one-lane traffic. Originally they had said it would be Sunday night before the highway would reopen after it was closed to install a huge culvert, 20 feet into the ground. It is expected that it will be one-lane traffic for the next few weeks.

The original 24-inch culvert had failed during a storm last December, when much of the ground under the highway’s southbound lane was washing away. The new pipe measures 11 feet in diameter and can better accommodate high-water events.

ODOT chose a rapid replacement approach for the culvert project due to the difficult terrain and the high cost of building a detour lane, which would have added another million dollars to the project. All work on the \$1.25 million project is expected to be finished by the middle of October.

The Tuesday (Sept. 23) Meet and Greet featured Sheila Howe and other members of the Food and Faith board talking about nutritional assistance in Bandon. The program, at Bandon Fisheries Warehouse, started at noon. Representatives from other food groups also took part.

The program for Sept. 30 will feature the Coos County Beekeepers.

Updated guidance

released recently by the new four-state West Coast Health Alliance has cleared the way for federally approved 2025-26 COVID-19 vaccines to be available, without a prescription, to anyone who wants them.

Effective Sept. 17, the Oregon Board of Pharmacy has changed its rules to allow pharmacists to resume vaccinating people 7 years and older without obtaining a prescription from their provider. Influenza vaccines may be administered to children 6 months and older.

OHA encourages anyone who wants a Covid vaccine to first check with the pharmacy for availability. I have heard that vaccinations will be given by the Southern Coos Health Foundation in city park in October, but I don’t know the details.

A number of people have filed for Coos County positions, to be on the ballot for the May 19, 2026, primary election. Deadline to apply is March 3.

Incumbent Coos County Commissioner John Sweet, position No. 2, has filed for re-election, and has been challenged by Brandi Martindale of Coquille.

For position No. 3 on the board of commissioners, a seat now held by Rod Taylor of Bandon, two people have filed, including Rick Osborn of Coos Bay and Rick Coleman of North Bend. Incumbent county clerk Julie Brecke has filed for re-election, as has Sheriff Gabe Fabrizio.

Reservations have closed for the Sprague Theater’s 25th anniversary dinner. The concert is at the Sprague Theater Saturday, Sept. 27, with doors to open at 6:30 and the concert to start at 7.

The concert featured classically trained vocalists Lachlan Miller and Nicole Stover, along with the Red Fish Music Festival ensemble and others. Lachlan is the son of Bandon attorney Robert S. “Robin” Miller III and Geneva Miller.

Refreshment were provided at intermission, including wine provided by Larry and Sheila Langenberg of 2 Mile Bistro and pastries from Coastal Mist.

People are invited to join friends and supporters of Bandon’s Museum for an evening of good food, good company, a no-host bar and a spe-

cial “History Detective’s Challenge” for adults at the Bandon Fisheries Warehouse, Thursday, Oct. 9, from 5 to 7 p.m. Tickets are \$15 and can be purchased at the museum or reserved by calling 541-347-2164. Proceeds benefit the museum. “Night at the Museum” is typically held at the museum, but due to anticipated construction at the museum, this year’s “Night FOR the Museum” is hosted by Bandon Fisheries Warehouse.

There seems to be some confusion about the difference between Real Market Value (RMV) and Assessed Value (AV) when it comes to property taxes. Most properties, especially in coastal areas like Bandon, have a fairly high RMV, but the AV is often much lower, and that is the value on which your property taxes are assessed.

For example, the real market value of my rental is \$489,000; the assessed value, on which I pay taxes, is \$146,400. My home has a RMV of \$389,130, while the taxable (assessed) value is \$159,530.

Taxpayers received a break with ballot measures 5 and 50, which limited annual assessed value increases to 3 percent ... while the market value can increase drastically but does not affect your tax bill.

This is the time of year when my thoughts turn to the Bandon Fire, which occurred Sept. 26, 1936, and burned the family home of both sides of my family. Recently in documents that were in

my grandfather’s safe, and survived the Fire, I found an original document from the American Red Cross, sent to W.A. LeGore, city recorder, dated Nov. 27, 1936, which was the official Red Cross count of buildings destroyed in the Fire.

It included not only buildings destroyed within the city limits, but also close to the city limits, within a radius of one-eighth to one-quarter of a mile.

Houses destroyed, 583; business houses destroyed, 85; churches, 9; public schools, 2; and other buildings, 50, for a total of 729.

The letter pointed out that “small buildings as one-car garages, woodsheds and other comparatively small outbuildings were not included in the count.”

I had no idea of the magnitude of what was lost that day.

We also know that the number of people who lost their lives that day was 11, but others, including Dr. Arthur Gale, died within a few months of smoke inhalation. Dr. Gale was 58, and was among Bandon citizens who fought the fire, giving aid to the ill and injured while his home and office were consumed by flames.

The Bandon Chamber of Commerce has a new executive director. Nalia Brewster was recently hired, and although I haven’t met her yet, I’ve heard great things about her. Now that the festival is over, hopefully we will have time to get together so I can share more information about her.

Roger A. Myhre

November 9, 1929 - August 19, 2025

Roger Albert Myhre, age 95, of North Bend, Oregon, went to his heavenly home on August 19, 2025.

150 years ago, Roger's Grandpa Nils Myhre, at the age of 23, boarded the ship "Hero" in Norway and traveled to America. He settled in Minnesota and became a tailor. Also during this time, Roger's other grandparents Ole and Ingeborg Jacobson, residents of Denmark, immigrated and settled in Minnesota on a farm. The early settlers built Bear Creek Lutheran Church and Roger's relatives were buried in the surrounding churchyard. In Roger's words, "It is heartwarming to visit and think about those early pioneers whose high priority was to build their church and spread the good news of Jesus Christ and the gospel message of salvation to the area."

Roger was born November 9, 1929, in Austin, Minnesota, to Albert B. Myhre, a Norwegian, and Annette Marie (Jacobson) Myhre, Danish.

Roger grew up in Grand Meadow, Minnesota. He was baptized and confirmed at Grand Meadow Lutheran Church.

Roger graduated from Grand Meadow High School in 1947. He enlisted in the United States Air Force and served three years during the Korean War. He was stationed in Germany. Upon return, Roger attended and graduated from the University of Minnesota in 1958 with a degree in forestry. He was hired by the U.S. Forest Service and his first job would be in Grand Marais, Minnesota.

Roger Myhre met Mary Elaine Dahlberg in church in Solon Springs, Wisconsin. Mary was the pianist. Soon after, Roger arrived at Mary's parents' doorstep asking if Mary would give him piano lessons which she did. Later Roger was the driver for a Dahlberg family vacation trip to California. Roger asked Mary to marry him on the Pacific Coast beach. She said, "Yes!"

In 1958, Roger and Mary were married. They raised five children: Tammy, Faith, Jennifer, Peter, and Jon. First they lived in Grand Marais, Minnesota, where Roger built his first home. As Roger advanced in his career, he and his family had the privilege of living

many different places.

From Minnesota the Myhres moved to Coos Bay (Greenacres), Oregon. Next Roger went to college at Oregon State University and received his teaching certificate. They then loaded their big truck Pedro and headed to Allen, South Dakota, where Roger taught 5th grade on the Sioux Indian Reservation. Their family went on to Rushville, Nebraska, and then Roger returning to forestry, relocated to Kemmerer, Wyoming. Afterwards, an arduous trip ensued as he and his family took a long trek westward with their mobile home in tow to live in Ellensburg and then Kittitas, Washington.

Roger and Mary always loved Oregon. Roger's last transfer was to Powers, Oregon. They lived in nearby Myrtle Point and Roger commuted by carpool to work. He would often be seen jogging home from work before the carpool vehicle caught up with him.

Roger's plan was to work hard and retire at 55 years of age. In 1984, Roger Myhre retired at the age of 55 and built a stunning house in Greenacres, just south

of Coos Bay, the same location he had lived at the beginning of his life journey. Their home was bedecked with natural wood within and made with skillful, clever architecture.

Roger and his wife Mary welcomed many into their home in the country. They lived there 37 years until they moved to Inland Point Assisted Living in North Bend, Oregon, and have been living there the last 4 years. Roger and Mary have been married for 67 years.

Roger was deeply committed to and loved his church family at Faith Lutheran Church. These people were an inspiration to him! Roger was involved in clown ministry, Boys & Girls Club, a mission to Vietnam and Mexico, the local food bank, and helping the Navajo Indians. In his 80's, he ran the Prefontaine 10K race for three years in Coos Bay, Oregon.

Merkley, Wyden Join Colleagues to Champion Expanding Head Start for Working Families

PRESS RELEASE

Washington, D.C. – As the Trump Administration continues to attack and undermine Head Start, Oregon’s U.S. Senators Jeff Merkley and Ron Wyden announced today they joined their Senate colleagues to introduce the Head Start for America’s Children Act. This sweeping legislation would expand Head Start to ensure that more than 11 million young children from working-class families can access high-quality early education and comprehensive services, while also ensuring Head Start educators earn the wages they deserve.

“A good education is one of the foundations working families need to thrive. For six decades, Head Start has helped America’s kids start off on the right foot by ensuring they are ready for kindergarten. But instead of supporting this vital program, the Trump Administration has illegally withheld crucial federal dollars for teachers and students,” said Merkley. “Head Start programs are essential to making sure the doors of opportunity are open to every child in our country, and I’ll keep fighting to deliver the resources that families in Oregon and across the nation need to thrive.”

“Head Start has proven again and again that it gives students the support they need to succeed in early education and beyond,” said Wyden. “As Donald Trump takes a wrecking ball to the programs that Oregon families rely on, I will continue to fight tooth and nail to defend this lifeline that helps families and kids thrive inside and outside the classroom.”

As Ranking Member

of the Senate Budget Committee, Merkley led the charge in calling on the Government Accountability Office (GAO) to investigate the Trump Administration for illegally impounding funds, including to Head Start. In July, the GAO published their finding that the Trump Administration did violate the Impoundment Control Act by withholding appropriated funding for the Head Start program.

The Head Start for America’s Children Act was led by Sen. Bernie Sanders (I-Vt.), Ranking Member of the Senate Committee on Health, Education, Labor, and Pensions (HELP), and joining Merkley and Wyden as cosponsors of the bill are Sens. Kirsten Gillibrand (D-N.Y.), Tim Kaine (D-Va.), Peter Welch (D-Vt.), Ed Markey (D-Mass.), John Fetterman (D-Pa.), Tina Smith (D-Minn.), Chris Van Hollen (D-Md.), Elizabeth Warren (D-Mass.), Andy Kim (D-N.J.), Richard Blumenthal (D-Conn.), Alex Padilla (D-Calif.), Mazie Hirono (D-Hawaii), and Ben Ray Lujan (D-N.M.).

For 60 years, local Head Start programs have provided high-quality early education and comprehensive services for more than 40 million children and working-class families. Today, nearly 800,000 children receive early education, health and dental care, and healthy meals through Head Start, while their families access referrals for job training, adult education, nutrition services, and housing support.

Research shows that the first five years of a child’s life are critical for social, emotional, and

cognitive development. Head Start children are better prepared for kindergarten, have better health outcomes, and are more likely to graduate from high school and attend college. Yet in America today, families in most states pay more for child care than rent, mortgage payments, or in-state college tuition. High-quality early learning opportunities remain out of reach for millions, with 5.3 million children under the age of 6 — nearly 17% of children in America — living in poverty in 2023.

The Head Start for America’s Children Act would:

- Fully fund Head Start to serve 11 million eligible young children and simplify enrollment;
- Align program hours with working families’ schedules so parents do not need additional child care;
- Raise Head Start educator pay to at least \$60,000 a year and establish salary scales and competitive benefits;

- Improve mental health services for Head Start staff, families and children; and
- Invest in facility upgrades, including removing lead contamination in paint and water.

The legislation is endorsed by the American Federation of Teachers, Zero to Three, MomsRising, the National Women’s Law Center Action

Fund, UnidosUS, Child Care for Every Family Network, The Arc of the United States, Council for Exceptional Children, Division for Early Childhood of the Council for Exceptional Children, New America’s Early and Elementary Education Policy Program, and the Vermont Head Start Association.
