**Sweet Talk**

Maple syrup is classified according to its color. Lighter-colored syrups have a mild flavor, while darker syrups have a more distinct maple flavor.

In general, colder weather produces lighter syrup, while warmer weather produces darker syrup.

**Tap Dance**

Can you help this sugar maker tap the tree?

**Sweet Spot**

Nearly all of the world's maple syrup is produced in eastern North America.

Quebec, Canada, is the largest producer of maple syrup in the world. They produce about two-thirds of the world's supply.

Vermont produces about half of the United States' maple syrup.
