

REIMAGINED

CARDIAC & VASCULAR CARE

REIMAGINING: ACCESS

Access expert cardiovascular care at any of our 14 locations with convenient scheduling options, including online booking and virtual visits, while benefiting from a team-based approach and personalized care.

REIMAGINING: INNOVATION

Innovative treatment options such as TAVR, cutting-edge hybrid operating rooms with real-time imaging, and specialized programs such as the Heart Valve Clinic deliver precise care and safer outcomes. On-site clinical trials provide patients with access to research on treatments for conditions such as atrial fibrillation, congestive heart failure, and lipid disorders.

REIMAGINING: PATIENT-CENTERED CARE

Recover more quickly in a supportive care environment with private rooms and nearby ICU and maintain your long-term heart health with support from one of our comprehensive cardiac rehabilitation programs.

Choose **Guthrie**, where heart care is truly **REIMAGINED**.

♥ **Over 3,600 Cardiovascular Procedures Last Year**
