

CAREER OPPORTUNITY WITH TRI-CO CONNECTIONS

Network Engineer

Tri-County Rural Electric Cooperative is accepting applications for the position of Network Engineer for its broadband internet subsidiary, Tri-Co Connections. This full-time position will be based in Coudersport, Pa.

The successful candidate will be responsible for a wide range of responsibilities, including network design strategy, network engineering, implementation, migration planning, service design, proof-of-concept testing and optimization services. Other duties include configuring and installing various network devices, and performing the installation, test and turn up of various DC power systems and associated central office common systems, including cable rack and fiber raceway.

Candidate must be proficient in Windows Server and Linux; have the ability to install and support LINUX applications such as DNS, DHCP, MySQL; be knowledgeable of network protocols, with advanced understanding of BGP and OSPF; be knowledgeable of layer 3 traffic engineering and layer 2 traffic management; possess scripting and automation skills.

A bachelor's degree in computer science, computer engineering or computer networking is preferred. In lieu of a degree, candidates with at least five years of progressively related experience will be considered.

Tri-Co Connections will begin constructing a fiber-to-the home broadband network in the Coudersport area later this year as part of a multi-year project to bring high-speed internet to the rural areas of the Northern Tier and north-central Pennsylvania.

The parent company, Tri-County REC, is a not-for-profit energy provider based in Mansfield, Pa., that delivers electricity to 17,000 members in seven counties in north-central Pennsylvania. Tri-County offers an excellent compensation and benefits package.

Qualified applicants should send a cover letter, resume, and references to: Aaron Young, Chief Technology Officer, via email: AaronY@ctenterprises.org.

Applications must be received by 4 p.m. Friday, Oct. 18.
