Sat. & Sun. 12 to 4 p.m.; Closed Mon. & Wed.

PET PHOTOS WITH SANTA

Tentative dates: Dec. 12, 13, 19 & 20
Check Second Chance's website
and Facebook for more details soon!

Meet TAYLOR

Taylor has a "Blank Space" in her heart, but she'll "Shake It Off" until someone says "You Belong With Me." This 1-year-old pop star is happy, friendly and outgoing. She enjoys singing, playing and rolling around on her back. She loves her adoring fans (people and dogs), and seems playful with cats! Taylor is spayed, microchipped and vaccinated.

Meet TRAVIS

This rugged football-player type is the hunk who finally gets you! Travis is always happy, positive, tons of fun, and gives great hugs and kisses. He loves to romp around with dog friends, including his sister Taylor, and seems playful with cats. He'd about a year old and will be neutered and microchipped soon, and is vaccinated.

Meet AMELIA

This vampurr is taking applications for a mortal servant! Amelia is super sweet, quiet and chill, but she has a chronically runny nose. It doesn't seem to bother her, but we're experimenting with different treatments. She may just need a change of scenery! She's about 1.5 years old and is fine with other cats and dogs. She's spayed, microchipped and vaccinated.

Meet STUBS

Stubs' chubby cheeks and stubby tail are all dressed up in a tuxedo-dressed package. She's a social butterfly, always asking for pets, rolling on her back and playing in the sink while her stubby tail "wags" as if she's happy to see you. She's about 2 years old and is fine with other cats and dogs. She's spayed, microchipped and vaccinated.

Winter Wellness: Has your pet had his/her preventive care exam (wellness exam) yet? Cold weather may worsen some medical conditions such as arthritis. Your pet should be examined by a veterinarian at least once a year, and it's as good a time as any to get him/her checked out to make sure (s)he is ready and as healthy as possible for cold weather.
