KELLAN

Kellan is a big baby who sometimes doesn't realize his size! He loves to play and run around! If you love large dogs Kellan is the one for you!

BIG MOMMA

Moms give us all the love and attention we need to grow and prosper. Big Momma is no exception. She is lovable and warm, and she's got a heart of gold. She is a gentle giant who loves to snuggle with anyone. She is a true mama bear who will protect her family. She is a true mama bear who will protect her family. She is a true mama bear who will protect her family. Come meet her today and find out just how much love she has to give.

GIGI

Hello there! My name is Gigi and I am quite the pretty little dog. My partner in crime, Cooper and I are looking for a forever home. We are glad to have each other and we always look out for one another. Currently we are in a foster and we are really enjoying life in a real home. We need a forever home though so we can share our love with other people. I will quickly warm up to after you give me some treats and a cozy place to lay. Will you give Cooper and I our forever family?

COOPER

Do you have room for two? I don't want to know what life is like without my best friend Gigi. She may be four times smaller than me, but we are basically litter-mates. I'm a goofy guy who loves to roll on my back and ask for tummy rubs. At first I may be timid, but I really enjoy back massages and ear scratches. I'm enjoying life with my foster family, however I would love it better if I could stay with you forever.

HILL'S SCIENCE DIET

Winter wellness: Has your pet had his/her preventive care exam (wellness exam) yet? Cold weather may worsen some medical conditions such as arthritis. Your pet should be examined by a veterinarian at least once a year, and it's as good a time as any to get him/her checked out to make sure (s)he is ready and as healthy as possible for cold weather.

HEMP

Hemp is such an outgoing cat, he's kind of like the cat equivalent of Christopher Columbus. He loves exploring the cattery and any other new place. To ensure he has successful expeditions he has to be very brave so not much scares him... Except dogs, he thinks dogs are very scary. Just because he likes to spend time exploring, doesn't mean he won't stop for a cuddle or two on the way to his next journey. In fact he enjoys getting attention from people almost as much as he enjoys exploring. Hemp is an all around great cat and would make a great addition to any family.

CHILLI

Chili is sweet and sometimes even a little bit shy. He does love it though, when he gets chin scratches and has the biggest motor! Chili has lots of energy to spare, so he loves to get it all out in play sessions with his kitty friends or a noisy toy. At the end of the day, after a good play and some dinner, Chili loves to curl up next to you and snooze.

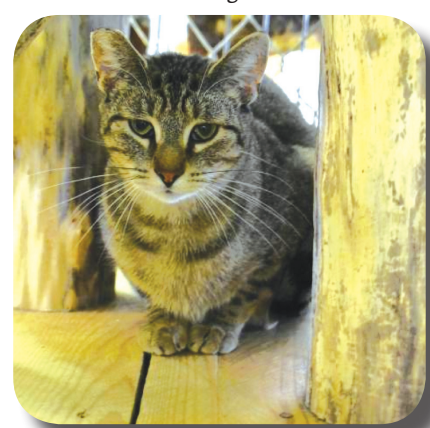

MURTAUGH

Murtaugh arrived here when he was a kitten, that was 2 years ago. He struggled to fit in for a little while but he has found a friend and that has really helped. Since he found a new friend he's more affectionate, more vocal and more tolerant of other cats. He socializes attention from everyone who walks by his communal, and reaches his little paw out as you approach to wave hi! He loves to play, jump and run around, he's a very active cat. He's entertaining to watch when he really gets to playing. With Murtaugh around there's never a dull moment, he makes everything exciting. If you need some excitement in your life then Murtaugh is definitely the perfect match for you.

BISSELL

Bissell would make a great addition to any family. If you're looking for a very affectionate, sweet cat then you've found your match. She loves attention; if you go to pet her she'll meet your hand with a nice little head butt. This sweet lady may act shy at first but give her a minute to warm up and you'll have a best friend. She is bonded with Oil and we would like them to go home together.
