

A Guy You Need to Know... Cris Dush for PA Senate District 25

Served our U.S. military with distinction and honor, a U.S. and PA Constitutions scholar, ethical, has integrity, cares and respects his constituents, and guided by God's presence in his life. These are my words to describe PA Representative Cris Dush, who after serving three terms as a Republican in the House of Representatives in District #66 (northern Indiana and Jefferson Counties), **is seeking the office of PA Senate in District #25**, your district.

Cris Dush is the guy you need to know because no other candidate for the PA Senate race in District #25 has the EXPERIENCE that he has. Cris Dush, more than any other state representative we've had, has energized the people in our district to take an interest in the workings of our state. When he posts on facebook the work he has done on any given day, his facebook page goes viral with 'likes' and positive comments. I, along with others in the district, are saddened to see him leave as our state representative in Indiana County; but we are all encouraged about all he will do as a SENATOR in your district.

As a six-year volunteer in Cris Dush's army of ordinary people, I have seen him be a relentless fighter for all people including us often-forgotten rural folks. He helped township supervisors, EMT's, firefighters, farmers, construction workers, truckers and lumber workers with issues facing their tight working budgets. He encouraged them to seek networking and grants. And he encouraged problem-solving ideas from these same professionals and us constituents, too.

Cris has been a 'thorn' in the side of our tax and spend Democrat governor. Cris and other Republican State Representatives uncovered over \$200 million in over 100 hidden special accounts that the governor continues to use as a slush fund without any accountability!

This 'gentle giant' of a man is a proud Grandpa who loves and takes pride in the children of our area because he knows they are the area's future. I'm still amazed at how many events he managed to attend that honored aspiring youth in sports, Scouts, FFA, and 4-H.

Cris met thousands of people by going door-to-door (and losing many pounds, too) when he first ran for State Representative. Unfortunately, the coronavirus shutdown makes it impossible for him to meet you in person in this race. I know it hurts Cris personally not to be able to look you in the eye and shake your hand. He has literally sacrificed his campaign to be in Harrisburg fighting tooth and nail to get PA businesses opened again with coronavirus restrictions. **He truly is a public servant and not a politician.**

Look over the qualifications of his two opponents and you'll quickly see that Cris Dush is the ONLY candidate for PA SENATE who has the EXPERIENCE you need in Harrisburg. Vote in person at your polls, vote absentee ballot or vote mail-in ballot, BUT VOTE. To change your party for Cris, call your voter registration office or go online to votespa.com for information. Your vote DOES count!
