Meet **MILO**

This 4-5 year-old Shepherd mix is smart, loving, and full of personality! Milo is great with other dogs, cats, and kids. He loves to play, chew on bones, and snuggle up when it's time to relax. If you're looking for a loyal companion with both brains and heart, Milo's your guy! Milo is neutered, up to date on vaccines & microchipped.

Meet **BAILEY**

Bailey's story will melt your heart. This 2-year-old sweetheart has spent most of her life in a shelter after being abandoned. She's shy at first but quickly warms up and gives the best snuggles! Bailey is great with other dogs, amazing with kids, spayed, vaccinated, and microchipped. She just needs someone to give her the chance she's been waiting so patiently for!

Meet **WILLOW**

Willow is a 16-week-old female pitty mix with a beautiful brindle coat and all the puppy charm to match. She's sweet, playful, and full of curiosity, she is crate & housetrained!

Meet **JOY**

Joy is a 5-year-old female with a huge smile and an even bigger heart. She's a happy, affectionate girl who just wants love, attention, and to be close to her people. Joy has a past bite incident involving a child during an inappropriate interaction, so we recommend older, respectful kids who understand boundaries. She also has focal seizures that are being successfully managed with medication, and she has not had an episode in weeks. In the right home, Joy is a loving, loyal companion who brings pure sunshine with her wherever she goes.

Meet **COOPER**

Cooper is a 6-7-year-old male survivor with a story that almost ended too soon. He was found on the streets of Philadelphia after being mauled by a dog, emaciated, frostbitten, and so hypothermic his temperature wouldn't even register. He fought his way back from the brink and never gave up. Despite everything he endured, Cooper is pure love. He's house-trained, wonderful with kids, and deeply devoted to his people. Because of his past, slow introductions to new dogs are a must. Cooper has already survived the worst — now he deserves the safe, loving home he's waited for.

Winter Wellness: Has your pet had his/her preventive care exam (wellness exam) yet? Cold weather may worsen some medical conditions such as arthritis. Your pet should be examined by a veterinarian at least once a year, and it's as good a time as any to get him/her checked out to make sure (s)he is ready and as healthy as possible for cold weather.
