

EXPERT ORTHOPAEDIC CARE, Close to Home.

UPMC Orthopaedic Care in Coudersport, Bradford, Emporium, and Shinglehouse are accepting new patients and surgical consultations. As an established leader in the region, experts offer quick access to comprehensive musculoskeletal care for:

- ACL repair.
- Arthroscopic surgery.
- Carpal tunnel surgery.
- Fracture care.
- Hip, knee, and shoulder replacements.
- Rotator cuff repair.
- Sports medicine.
- Tendon and bone grafting.

Our providers are well-versed in a variety of specialized techniques and services, providing high-quality care to patients in the area.

Innovative Joint Replacement Surgery Options

Our joint replacement experts are dedicated to returning patients to their highest level of function. We use advanced technology and personalized treatment plans.

Some patients having a total joint replacement are eligible to be discharged on the same day as their surgery. Patients who are healthy at baseline with a reasonably high level of function and good mobility can be potential candidates. Our orthopaedic surgeons will discuss with the patient if they qualify for same-day joint replacement.

To improve precision, consistency, and efficiency in total knee replacement procedures, our joint replacement experts use TRUMATCH™.

We create a patient-specific 3D model of the knee through a CT scan. The model serves as a surgical guide. This allows the surgeon to better align the implant, enhancing long-term outcomes for the patient.
