**HOURS:**

Monday thru Wednesday  
9 - 4

Our new office called **Wellsboro Hearing** is owned and staffed by **Mansfield Hearing Aid Center**. We now have locations in **Bloomsburg, Mansfield, and Wellsboro** to assist and serve you better. For those of you that are not familiar with us, we first opened in Mansfield in 2015. We are a hearing aid center that focuses on helping everyone live life to the fullest. We have state of the art testing equipment to better assist you in reaching your hearing goals. We understand how important it is to enjoy every day of our lives and being able to hear and UNDERSTAND our friends and family is a big part of being able to do that. We can help you hear your spouse, children and grandchildren, watch your favorite television shows, talk on the phone or enjoy a nice dinner at a local restaurant. The biggest complaint I hear from new patients is that I can't understand what people are saying when there is any kind of background noise. With the current advanced technology, that is a problem of the past. Today's hearing instruments can reduce the background noise and also amplify the voices in front of you at the same time. It will make a world of difference in your life. Our goal is to provide **AFFORDABLE** hearing instruments without sacrificing quality. The cost of hearing instruments over the years has gotten out of hand in our opinion and are not affordable to most people on a fixed income, so we decided to do something about it. On average, we can beat our competitors price by \$2000-\$5000. We accept all insurances and have special pricing for patients whose insurance does not cover the cost of hearing instruments. We are not a Non- Profit Company but we are run like one. We make enough profit to pay our expenses and we take pride in helping the people of our community who are seeking help because we believe everyone has the right to hear the world around them!

Hearing test and consultations are always free for everyone. We also provide free lifetime aftercare, cleanings, preventable maintenance, and adjustments. All of our patients receive a free hearing test every year because we know your hearing is going to change over the years and you will require adjustments to keep you hearing and understanding your best. The only time we accept any form of payment from you is to purchase your hearing instruments. All of your follow up appointments including emergency appointments are free for life. Everyone gets the owners personal cell phone number for weekend emergencies. We are available to you seven days a week including holidays. We take a lot of pride in our aftercare, we will be here for you whenever you need us for years to come. If there ever comes a time in your life that you are not able to come to us we also do home visits for FREE. You will enjoy a stress free environment with no sales pressure, just honest advice and information. We offer everyone a 30 day 100% money back guarantee. When you purchase hearing instruments from us, you are able to wear them for 30 days. Then you can decide if they are worth the cost and ask yourself do they make a big impact and improve the quality of your life. If you are not completely convinced that you don't want to live one more day without them, we will refund you 100% of what you paid. After your initial consultation and testing, if we can't help you and make a big difference in your life, we will be honest and tell you to save your money. Not everyone that comes to see us needs hearing instruments. Sometimes it's just ear wax or another medical issue. So do yourself and everyone that loves you a favor, call the nearest office to you and come in for a **FREE consultation**.

If you are reading this because you have a friend or family member that needs help, please give them this to read. They won't be offended. They will know you gave it to them because you love and care about them. The most important thing is not to put this off any longer. If you decide not to come see us, please go to any qualified professional and get the help you need! Do your research and compare. Hearing instrument quality and pricing can vary greatly. The more information you get, the easier it will be for you to make a good and informed decision.

I look forward to seeing you in the near future!

Sincerely,  
Denny Guffey
