

The New \$1 Cream for All Your Neuropathy Discomfort

A cream, not a pill, may be the most effective solution yet for neuropathy sufferers; increases sensation in the legs and feet, relieving burning, tingling, and numbness

By Dr. Henry Esber, Ph.D.

BOSTON – An exciting clinical use survey study shows that a new cream can relieve leg and foot discomfort in just 15 minutes of applying.

And according to the study participants, burning, tingling, and numbness were the most common symptoms to be relieved.

The cream, called *Diabasens*, recently developed by scientists in San Diego and became an instant hit among those suffering with neuropathy.

Its patent pending formula works within minutes of contacting the skin, initiating two phenomena's in the body.

The first phenomenon is known as vasodilation which triggers arteries to expand, improving circulation in the extremities.

The second is called TRPA1 activation and this is what really has people excited.

Research Shows Correlation Between Nerve Damage and Sensation

Published research shows that neuropathy symptoms arise when the nerves in your legs and feet break down and blood flow is lost to the areas which surround them.

As the nerves begin to die, sensation is lost. This lack of sensation is a major cause of burning, tingling, and numbness.

Remarkably, *Diabasens* contains one of the few known substances to activate TRPA1, a special sensory pathway right below the skins surface which controls the sensitivity of nerves. It's these nerves that allow you to feel hot, cold, and touch.

And although this pathway has been known about for years, neither a drug or a pill has been able to target it successfully. That's why *Diabasens* is so impressive.

"It all comes down to sensation. When sensation is lost the foot feels constantly asleep. It may also burn and tingle. When sensation is increased, these nagging symptoms often go away", explains Dr. Henry Esber, one of the scientists behind *Diabasens*.

"That's why *Diabasens* performed so well in our clinical use survey study. It increases sensation and blood flow wherever it's applied. It's impressive to say the least"

A Brilliant Technology Most Failed to Consider

Until now, many pharma companies have failed to develop a means of TRPA1 activation to manage neuropathy. *Diabasens* is one of the first to take full advantage of this amazing discovery.

"Today's treatment methods have focused on minimizing discomfort instead of attacking its underlining cause. That's why millions of adults are still in excruciating discomfort every single day and are always battling effects" explains Esber

A NEW WEAPON FOR FIGHTING NEUROPATHY

DISCOMFORT: *Diabasens* increases sensation and blood flow wherever its applied. It's now being used to relieve burning, tingling, numbness among other discomforts.

"*Diabasens* is different. Since the most commonly reported symptoms... burning, tingling and numb legs and feet...are caused by lack of sensation of the nerves, we've designed the formula increase their sensitivity.

And since these nerves are located right below the skin, we've chosen to formulate it as a cream. This allows for the ingredients to get to the site faster and without any serious side effects" he adds.

Study Finds Restoring Sensation the Key To Effective, Long Lasting Relief

With the conclusion of the human clinical use survey trial, the makers of *Diabasens* are offering it nationwide. And regardless of the market, its sales are exploding.

Men and women from all over the country are eager to get their hands on the new cream and according to the results study participants reported, they should be.

In the trial above, participants taking *Diabasens* as needed experienced relief in just 15 minutes after applying! Burning, tingling and numbness were the most commonly reported symptoms to improve.

Even more impressive, when asked if this was the best product they used for their legs and feet, 90% gave a resounding "Yes" with all participants concluding they would absolutely recommend it to someone else.

A breakthrough in neuropathy management and supportive care, *Diabasens* is shown to provide relief from:

- Discomfort
- Numbness
- Tingling
- Swelling
- Balance

Targets Nerves Right Below the Skins Surface

Diabasens is a topical cream that is to be applied directly the legs and feet. It does not require a prescription.

The active ingredient is a compound known as cinnamaldehyde.

Studies show that neuropathy and discomfort caused when peripheral nerves breakdown and blood is unable to circulate into your legs and feet.

As these nerves deteriorate, sensation is lost.

This is why you may not feel hot or cold and your legs and feet may burn, tingle and go numb.

Worse, without proper blood flow, tissues and cells in these areas begin to die, causing pain that seems to never go away.

The cinnamaldehyde in *Diabasens* is one of the very few compounds in that can activate TRPA1, a special sensory pathway that runs through your entire body.

According to published research, activating this pathway increases the sensitivity of nerves, relieving feelings of tingling and numbness in your legs and feet.

Supporting ingredients boost blood flow, support cellular health and stimulate the nerves for increased sensation.

Amazing Relief Exactly Where You Need It

With daily use, *Diabasens* users report remarkable improvements in their quality of life without of the serious side effects or interactions associated with prescription drugs.

Readers can now enjoy an entirely new level of comfort that's both safe and affordable.

Users have found is also extremely effective, especially if nothing else has worked with 90% ravings it's the best leg and foot product they've ever tried.

How to Claim a Risk Free Supply of *Diabasens*

This is the official release of *Diabasens*. As such, the company is offering a special discounted supply to any reader who calls within the next 48 hours.

A special hotline number and discounted pricing has been created for all Wyoming residents. Discounts will be available starting today at 6:00AM and will automatically be applied to all callers.

Your Toll-Free Hotline number is 1-800-631-6152 and will only be open for the next 48 hours. Only a limited discounted supply of *Diabasens* is currently available in your region.

Consumers who miss out on our current product inventory will have to wait until more becomes available and that could take weeks. The company advises not to wait. Call 1-800-631-6152 today.
