

**Work for one of the premier employers in Wyoming at  
the Lost Creek Project – North of Rawlins**

**Join the Lost Creek Team:**

**Hiring Mine Manager for Lost Creek**

Offering competitive salaries and a robust benefit package, including wellness benefits (health, dental, vision), generous PTO, 401K Plan with Company match plan, and much more. Relocation package available.

**Mine Manager Position Summary:** The Lost Creek Mine Manager is responsible for direction and leadership of the Lost Creek Mine. This includes overall planning and budgeting for and supervision of safety, compliance, construction, and production activities at the mine. Responsibilities also include the implementation and oversight of Company strategy, objectives and policies, reporting of mine site status to management and optimizing development, production and costs. BS or MS Degree in an in situ related discipline with at least five years' experience directing personnel activities. Reasonable understanding of in-situ practices including geology, drilling, construction, hydrology, fluid flow and plant operations, and ability to analyze technical operations issues and provide problem solving guidance.

*Applicants must be currently legally authorized to work in the U.S. We are an equal opportunity employer.*

Apply online by sending a resume to [www.ur-energy.com/careers](http://www.ur-energy.com/careers) or by emailing us at [HR@Ur-Energy.com](mailto:HR@Ur-Energy.com).

**Ur-Energy** is an innovative, industry-leading ISR uranium company, operating the Lost Creek mine in south-central Wyoming. Production operations began at Lost Creek in 2013 and, to date, we have produced ~2.7Mlbs U<sub>3</sub>O<sub>8</sub>. Our second Wyoming uranium project, Shirley Basin has all major regulatory authorizations and stands construction ready.

*Be a part of the solution: nuclear energy is clean energy!*
