Election Integrity

Wrote 17 FOIA requests demanding information regarding the 2020 election. The investigation revealed that there is good evidence that elections judges were not present as required by law. This could be criminal activity.

A qualified voter was not allowed to vote because he supported Trump.

Filed a criminal complaint and worked on a second complaint until it became evident that no action would be taken by the SOS or DA.

The SOS had acted prior to a County Clerk acting, stepping on the jurisdiction of the Clerk. Then failed to act after a Clerk ruled in a manner that seemed to be arbitrary.

Absentee and mail-in ballots appear to be the source of the voter fraud in most cases. We all know that the day-of-election in-person voting is not the problem. So why after a major rewrite of the election code does the election code still read:

22-9-102. Who may vote by absentee ballot.

(a) Any qualified elector may vote by absentee ballot.

Shouldn't we be encouraging day-of-election in-person voting? And limiting mail-in and/or absentee voting to people with special circumstances (military, camp jobs, out of town, homebound, resident in nursing care facility, or other). Shouldn't we advocate for paper ballots?

Business

The State should not pick winners and losers; free market factors should. Hard work, innovation, and honest business practices should make or break a business.

Our economy is suffering because Washington State is violating our Commerce Clause rights, and the State of Wyoming has standing to correct that injustice. The National Environmental Policy Act should not be weaponized.

Government should promote a fair playing field. Bill Gates should not receive preferential treatment (\$2M) to build a nuclear plant. Nuclear waste should not be stored above ground. The SOS should not support the good old boy club. Environmental, Social, and Governance (ESG) criteria will be fought against and stopped.

Small Business licenses fees (a tax) have doubled recently. Large multinational corporations should not find sanctuary for illegal conduct in Wyoming.

We must have housing and benefits for the working man and woman. While people work it seems that politicians only talk. "In all labor there is profit, but mere talk leads only to poverty." (Proverbs 14:23)

When people work hard, but are overtaxed to allow government waste and abuse doesn't that violate the principles of freedom? "He who steals must steal no longer; but rather he must labor, performing with his own hands what is good, so that he will have something to share with one who has need." (Ephesians 4:28)

Ethics

The standard that applies to government employment is appearance of inappropriate conduct. We the people are fed up!

"Government is a trust, and the officers of the government are trustees; and both the trust and trustees are created for the benefit of the people." —Henry Clay

In order for government to be effective in a free society there must be a foundation of trust. No government can function well without the consent and trust of those being governed. The government has lost the right to be trusted and this must change.

WSS 6-5-101 through 6-5-118 - Offenses by Public Officials. Applies to elected and appointed officials and employees. Some of the relevant topics covered: • Bribery • Accepting or soliciting compensation for favorable vote • Conflict of interest • Official misconduct • Wrongful appropriation of public property • Financial disclosure

WSS 9-13-1 through 9-13-109 - Ethics and Disclosure Act. These provisions apply only to mayors and council members and NOT employees. Areas covered include: • Use of title and prestige of office • Nepotism • Misuse of office • Official decisions and votes

WSS 15-1-128 - Gratuities. This section applies to elected officials and employees of any municipality.

WSS 16-6-118 includes provisions relating to unlawful interest in public contracts by elected
