

From interactive whiteboards to iPads for students, this isn't your father's classroom

GETTING SMART

This is the fifth in a six-part series.

PC POWER

Penn Cambria has added 13 classroom  sets of laptops in grades 5-12 with funding provided by a Keystone to Opportunity grant. Shade-Central City is adding Chromebooks and laptops for students. Ferndale Area has a 1-to-1 ratio of iPads to students in grades 7-12.

BOARD ROOMS

A number of local school districts use interactive whiteboards with touch screens.

RAMBLERS STEP UP TO STEM

Windber Area School District's middle/high school, which opened in February, features state-of-the-art technology in a number of areas, including the STEM (science, technology, engineering and math) room shown above. The district now has a One Button Studio at the school, which was sponsored by Windber Moose Lodge No. 349 with additional support from Windber VFW Post No. 4795.

Now Accepting New Patients
