

Union Health COPA Application Update

FOR IMMEDIATE RELEASE

(Terre Haute, Ind.) – Union Health is deeply committed to advancing health care for all Wabash Valley residents. The Certificate of Public Advantage (COPA) will foster an unprecedented opportunity to improve the health and wellness of the Wabash Valley.

Recognizing the COPA process is a very complex, innovative approach to improving access and quality health care for area residents, we believe it is best to withdraw the current application to allow time for Union Health and Terre Haute Regional to continue to work with IDOH, to ensure the benefits, including improved access, quality, prevention and early intervention, are outlined in the new application.

Union Health and Terre Haute Regional recognize the significance of a final approval, and the ongoing review process will continue to align with the principles of accountability and thoroughness as outlined by the COPA.

With the same steadfast commitment of more than 130 years, Union Health remains dedicated to enhancing public health programming and improving health outcomes. We remain focused on developing innovative solutions to overcome the persistent health disparities and challenges plaguing our communities for decades.

We look forward to continuing to collaborate with community partners to improve the health and wellness of the areas we serve and creating a significant impact on community health. We are optimistic about the future of health care in our community.
