*In Loving Memory*

# Robert "Bob" Donald Low

June 4, 1953-September 2, 2026

Robert "Bob" Donald Low, 73, of Tracy, California, passed away unexpectedly on September 2, 2026. He was born June 4, 1953, to Donald Low and Evadene Low in Jackson, California. Bob was raised in San Rafael, California; Portland, Oregon; and Tracy, California. He graduated from Tracy High School in 1972 and lived in Tracy for more than 15 years.

In his high school years, Bob spent much of his time water skiing at the Golden Anchor Boat Club, "souping up cars" with his best friend for maximum speed, and racing his father's car outside of town. He considered himself a "biker" on his Kawasaki and Harley. Later in life, he enjoyed jet skiing and was a radio-controlled model airplane enthusiast, building and flying with the Tracy Skyliners Club.

His greatest pride was his family. Bob was devoted to Mary Jane Low, the love of his life, and was a proud and loving father to his two children, Crystal and Brandon, and his daughter-in-law, Britany. His grandchildren, Sawyer and Amelia, held a very special place in his heart. Bob and Jane enjoyed exploring new places in California together and visiting the dog park each day with Fifi and the many friends they met.

Bob lived a life defined by hard work. Throughout his career, he worked as a maintenance electrician for Owens-Illinois and General Mills Corporation, and ultimately as a controls engineer for E & J Gallo Winery in Modesto, California, before retiring in 2018.

Bob was preceded in death by his mother, Evadene Low. He is lovingly survived by his father, Donald R. Low; his sister, Julie Doerr, and her husband, Chris; his daughter, Crystal Low; his son, Brandon, and his wife, Britany; his cherished grandchildren, Sawyer and Amelia; and the many friends who will miss him dearly. His memory will live on in the hearts of all who knew and loved him.

A private Celebration of Life was held on September 8, 2026.
