Subject: Marana Hertiage Park - STOP THE MADNESS

Hi boys,

Per Dave's call to all of us last week, it looks like we all agree the Heritage Farm discussions need to stop for now. And we can do that with our votes at the 8/5/14 meeting. As Jon and I agree, if we see or hear one more presentation on the park I will barf and Jon is going to man-handle someone!! No one needs to see this.

Our plan is to get he park paid for through bond money from the county in the next bond election be it 2015, 2016 or whenever. When the time is right, we may make a trip downtown and talk to Huckelberry & Sharon Bronson and tell them we will support the bond effort if they will support our park. But these discussions are a ways off.

So, we'll listen to what should be the last presentation on the park at our next meeting - and after discussions, if possible let Patty, Eddie or Carol make the motion to approve. And then the four of us will cast our vote to stop this once and for all.

As a side note, Jon pointed out that any park impact fees can be used for the park if desired, or if we want to throw them a bone, we could earmark \$50-100K to make the park "shovel-ready" in case we get the bond funding. But other than that, we're done. We have to do it at this next meeting - this item has leggs. Staff and others talk as if it was a done deal. Reference Gilbert's latest email regarding the fall festival.

Hope you are having a good summer.

XOXOXO

Rox
