STOP AIDING ENEMIES, FRENCH GOVT WILL OPPOSE ALL LENIENCY

Paris, March 4.—(By the Associated Press.)—The French government will make determined opposition to any revision of the treaty of Versailles that would modify her claims on Germany, it was learned today.

The attitude of the French government, according to the official point of view, is in perfect accord with the sentiments of the French chamber. It is held that any further concessions by the French government to Germany would not be tolerated by parliament and would be overturned.

The French official view of the economic situation, it was stated in authoritative circles today, is just the same as that set forth in London, that is, that Europe must be put on a prosperous basis. The French, however, it was pointed out, are beginning to think their allies have forgotten that France herself is not on a prosperous basis and not in a position to make concessions that would affect her own economic interests to anyone, least of all to Germany.
