

Approved by a vote of the LD3 executive committee tonight:

WHEREAS BE IT FURTHER RESOLVED that the PCDP recognizes that this allegation of sexual assault, and the unacceptable way it was addressed by Mr. Yuksel was not an isolated incident, and is instead symptomatic of how this issue has been dealt with in the past by far too many local and national candidates and public figures of all political parties, the PCDP rededicates itself to confronting rape culture in all of its manifestations, and doing all that it can to support victims, hold offenders accountable, and build a society free of sexual violence.
