## HOSTILITIES TO CEASE

Following the Signing of the Protocol at Washington.

## A SOLEMN AND IMPORTANT TRANSACTION

President McKinley Directs all Commanders to Cease Hostilities on Land and Sea.

Washington, Aug. 12.—With simplicity in keeping with republican institutions the war which has raged between Spain and the United States for a period of three months and twenty minutes past 4 o'clock this afternoon when Secretary Day for the United States and M. Cambon for Spain in the presence of President McKinley signed a protocol which will form the basis of a solemn and important transaction.

At 2:45 o'clock Secretary Thibault of the French embassy appeared at the state department to inform Secretary Day that the ambassador was in full possession of the note and was fully empowered to sign the protocol of peace.

After an exchange of diplomatic courtesies the necessary loss of time did not occur and Assistant Secretary of State Crider on the part of the United States and First Secretary Thibault on the part of Spain retired to a window where there was a critical formal examination of the protocol. This inspection and all the outward formalities done a document of such importance. I was prepared in duplicate at the state department, one copy to be retained by the United States government, the other to be the property of Spain. The text is hereinafter engrossed in running English script. Each copy of the protocol is arranged in double column French and English standing alongside for easy comparison as to exactness of translation. The two copies are alike except that one held by this government has English text in the first column and the signature of Secretary Day ahead of that of M. Cambon while the copy transmitted to Spain has French in the first column and the signature of M. Cambon ahead of that of Secretary Day.

The protocol sent to Spain was accompanied by the ordinance issued by President McKinley specially empowering Secretary of State Day to affix his signature to the document. The authorization was brief and in typewriting save for the president's characteristic bold signature. Later the American copy of the protocol will be accompanied by the written credentials of the Spanish government sent to M. Cambon and bearing the signature of Queen Christina. A cable despatch received by him today conferred full authority to sign the protocol and stated the written authority would follow signed by the queen regent in the name of the king. Prior to the ceremony of today M. Thibault showed a cable despatch to Secretary Day and it was accepted as sufficient to enable the ambassador to sign in behalf of Spain. When written authorization arrives it will be presented to the state department to accompany the protocol.

The examination of the protocol was satisfactory and the document was handed to M. Cambon first and then to Mr. Day who affixed their signatures in that order to each side of the two copies. Then the last detail in making the protocol binding was administered by Assistant Secretary Crider in charge of the clerical work when he attested the seal of the United States. The president stood at the left hand corner at the head of the great cabinet table. Secretary Day, M. Thibault and M. Cambon in the order named on the left hand side of the table. The rest of the party were standing in other portions of the room. No credentials were produced during the meeting at the White House, the president accepting Secretary Day's assurance that this had been settled to his satisfaction at the State Department. It was 4:23 o'clock when the final signatures were attached to the protocol, and within the knowledge of all officials present, this was the first time that a treaty or protocol had been signed at the White House. As this ceremony was concluded Acting Secretary Allen of the Navy Department, Secretary Alger and Adjutant General Corbin appeared, having been summoned to the White House by the president and were admitted into the cabinet room just in season to witness one of the most impressive features of the ceremony, when the president took the hand of ambassador and through him returned thanks to the sister republic of France for the exercise of her good offices in bringing about peace.

What Constitutes the Protocol.  
 Washington, Aug. 12.—The protocol provides:  
 First. That Spain will relinquish all claims of sovereignty over and title to Cuba.  
 Second. That Porto Rico and other Spanish islands in the West Indies and adjacent in the Ladrone to be selected by the United States shall be ceded to the latter.  
 Third. That the United States will occupy and hold the city and bay of Manila pending the conclusion of a treaty of peace which shall determine the control, disposition and government of the Philippines.  
 Fourth. That Cuba, Porto Rico and other Spanish islands in the West Indies and adjacent in the Ladrone to be selected by the United States shall be ceded to the latter.  
 Fifth. That the United States and Spain will each appoint not more than five commissioners to negotiate and conclude a treaty of peace. The commissioners are to meet at Paris not later than the first of October.  
 Sixth. On the signing of the protocol hostilities will be suspended and notice to that effect will be given as soon as possible by each government to the commanders of United States military and naval forces.

The above is the official statement of the protocol's contents as prepared and given to the press by Secretary Day.

Washington, Aug. 12.—In accordance with the proclamation issued by the president suspending hostilities, orders were issued this evening to naval commanders at several stations in the United States, Cuba and the Philippines carrying into effect the directions of the proclamation. The navy department not only transmitted the president's proclamation in full to several commanders-in-chief, but also directed them to the disposition of their vessels.

The following orders are in that sense self-explanatory:

Spanish and U.S. ships battle during the Spanish-American War in the waters off Manila, Philippines, in 1898.

## AUG. 13, 1898: ARMISTICE DECLARED IN SPANISH-AMERICAN WAR

The United States declared war on Spain on April 21, 1898. While there were several reasons for the declaration of war, the main ones were that the U.S. was supporting Cubans and Filipinos who were struggling against Spanish rule, and the U.S. blamed Spain for the explosion of the battleship USS Maine in Havana Harbor.

Eleven days after the war began, the Navy defeated the Spanish Pacific fleet in Manila Bay. The war lasted less than four months.
