WE HAVE A WOMAN BANDIT.
Stage Held Up By a Man and Woman.

They Secure Three Hundred and Fifty Dollars, a Six Shooter and a Gold Watch from the Passengers.

Associated Press Night Report.
PHOENIX, Ariz., May 31.—Arizona has a woman bandit. She helped a male companion to hold up the Globe and Florence stage yesterday. The robbery took place near Riverside, a station half way between the two towns. Neither of the robbers wore a mask, and though the smaller wore men's clothing, there was no doubt of her sex. The descriptions of the two fitted a man and woman who had been at Florence the day before.

There were three passengers on the stage from whom \$350, a six-shooter and a gold watch were taken. While the male robber was searching the victims, his companion kept them terrorized with a shotgun. A posse is hunting for the bandite.

Sheriff Wakefield of this city also received a dispatch as follows:

FLORENCE, May 31.—Stage held up at Cain Spring Canyon yesterday about 5 o'clock, p. m., by two persons, one a medium-sized man, resembles a Swede, weighs about 160 pounds; the other small of stature, long black hair, supposed to be a woman, wore a white brimmed hat; wore black and bay horses, with blind bridles, leading one to suppose they were traveling by wagon.

Jumped From a Train.
DENVER, Col., May 31.—John Carruthers, secretary of the Lafayette Supply company of Lafayette, became deranged mentally while returning from the east on the Burlington train, and jumped through the window when the train was running forty miles an hour, between Akron and Otis, Col. Searching parties were sent along the line, but they have not yet found him. Carruthers had been visiting friends in Nova Scotia.

Case of Dreyfus.
PARIS, May 31.—In the court of cassation today M. Maneau's address was largely a repetition of the statements of the reporter on the case. There was the same array of facts and similar deductions therefrom. The procurator general's analysis of secret documents was very close and he wound up with an emphatic declaration that there was nothing in the secret Dossier to incriminate Dreyfus, saying: "We do not understand why there was such delay in submitting them to investigation." The statement caused a sensation.

School for Boys Burned.
MENDOTA PARK, Cal., May 31.—The old Atherton mansion was destroyed by fire today. The building is part of Hoyt's school for boys and the closing exercises for the school were being held in the adjoining when the flames broke out. The alarm sounded and those gathered in the exercise room quietly removed to places of safety.

Acquitted.
PARIS, May 31.—M. de Roulede and Mariel Habert, who have been on trial before the assize court on a charge of inciting soldiers to insubordination in connection with the election of President Loubet, were acquitted today.

The Boundary Question.
WASHINGTON, D. C., May 31.—The officials here are unwilling to be drawn into a controversy over the boundary question, even though the matter has been the subject of a statement in the house at Ottawa by Sir Wilfred Laurier. It can be stated that the position of our government remains unchanged.

Baptists Protest.
SAN FRANCISCO, May 31.—At the session of Baptists today the committee on resolutions presented the following which was adopted:

Resolved, that we, the representatives of a million Baptists of the north, assembled in annual convention, do earnestly protest against B. H. Roberts becoming or remaining a member of the house of representatives because he stands convicted before the nation as a covenant breaker, guilty of crimes which shock the moral sense of the people and to permit him to hold his seat might be understood by the Mormon community as an upholder of that religion.

That wagon, "THE BREAKER," have you noticed it? If not, why not?

The San Xavier miners must have struck rich ore, as the representative of the STAR was shown specimens flecked with silver, taken from a load of ore brought in for shipment the other day.

The extended article in the Mining Reporter by G. Frank Judson, on the groups of mines in the Santa Rita mountains, especially the Rosemont and Helvetia, is attracting a good deal of attention in Tucson.

Colonel C. C. Benn was in the city yesterday from the Ajo. The colonel says his camp is in a prosperous condition. Vast bodies of copper ore of high grade, plenty of good water and lots of grub to eat and everybody is happy.

The members of Cactus Lodge, No. 94, B. of L. E. are feeling very jubilant over the recent substantial increase of fireman's pay on the S. P. R. R. They feel that the order has received merited recognition. From the nature of their work the boys certainly deserved an increase.

Memorial Day was observed in this city by the closing of the places of business and by appropriate exercises by the G. A. R. The veterans, preceded by the Juvenile band, followed by the local militia, marched to the cemetery where the usual services were held, followed by the decoration of the graves with flowers.

Mrs. Lena Williams and Miss Bessie Smith will open a summer school Monday in the room of the old school building on East Congress street. They will no doubt meet with much patronage, as there are many parents who will be glad to entrust their children to them, as they are excellent, capable teachers and their terms are reasonable.

The Catalina Copper Mining company is developing its mines in the Santa Catalina mountains. Fifteen men are employed running a tunnel, which is 150 feet. It is expected the copper vein of ore will be struck at about 175 feet, which will be over 200 feet below the apex of the ledge or vein. F. M. Hartman, local agent and attorney for the company, has the management of the business of the company in prosecuting the work.

Pima county's mines are receiving a large amount of attention through the press. The Los Angeles Mining Review of each week devotes considerable of its space to our mines. The Mining Reporter of Denver last week had an extensive description of the Silver Bell district, and this week contains a fine article on the Helvetia group. The Arizona Republican is likewise giving considerable attention to our mines. Tuesday's Republican had an interesting letter from its correspondent on the Azarite mines.

FORCES IN THE PHILIPPINES.
No Intention of Largely Increasing the Force.

President Does not Think it Wise to Muster in Additional Soldiers Under the Re-organization Bill.

Associated Press Night Report.

WASHINGTON, May 31.—The president today declared that there was not at present any contemplation of largely increasing General Otis' forces in the Philippines. He said nothing had been received from General Otis which indicated a necessity for more troops beyond the regulars who are to be sent to relieve the returning volunteers, but the president added that if additional reinforcements were necessary they would be promptly furnished.

The Nicaraguan Canal.
WASHINGTON, May 31.—The report of the Nicaraguan canal commission was made public late this afternoon. It estimates the cost of the canal at \$118,113,790. Colonel Haynes concurs generally in the report, but submits a personal estimate of \$134,818,398.

Reported Yellow Fever.
NEW ORLEANS, May 31.—Miss Grillo, aged 17 years, living on Royal street, was reported on Saturday as being ill with symptoms of yellow fever. The board of health at once had the house disinfected. Miss Grillo died on Sunday. An autopsy result laid before the board of experts reached the conclusion that the case presented evidences of yellow fever.

Rain for California.
SAN FRANCISCO, May 31.—Reports received by the Associated Press from all parts of California show that rain fell today in nearly all sections north of the Tehachapi mountains. Fruits will be greatly benefited but grain and hay crops are heavily damaged.

Rain at Los Angeles.

THE INDIAN SCHOOL.

Closing Exercises at the Institution Preparatory to the Usual Vacation.

The closing exercises of the Indian school were held Tuesday night and were very interesting. The exercises opened with a welcoming song by the pupils, followed by a prayer by Rev. T. L. Benedict. The opening address was given by one of the pupils. After this came exercises with songs. The feature of the evening, however, was the military drill, the pupils entering into the evolutions with zest.

During the past term there have been about 180 boys and girls in attendance of the Pima and Papago tribes. These all have bright faces and are well mannered. Many of them appear to be possessed of more than average intelligence.

In addition to giving the pupils the rudiments of an education they are taught practical work. The school is conducted by the Presbyterian denomination, which owns for the use of the school forty-two acres in the Santa Cruz valley, a short distance from Tucson. This with other leased land gives ample opportunity for instructing the Indians in farming. They are also taught other work which may prove useful to them in after life.

The object of the school is a worthy one and much of its success is due to the efficient corps of teachers. They are as follows: Superintendent F. J. Herndon, assisted by his wife; school department, Misses Jennie Ordway, Misses Prunyn and Carolyn Strong; matron of girls' room, Miss Alice Armstrong, Miss Florence Dilley; instructor in laundry, Miss Annie Crouthers; culinary department, Misses Lillian North and Sophie Ostermeier; disciplinarian and carpenter, J. G. Barton and foreman, W. W. Palmer.

Yesterday morning the pupils belonging to the Pima tribe left for Casa Grande. Two cars for their accommodation were attached to the freight that left here at 11 a. m. The school will reopen again in September.

Cold Storage Plant.
Bayless & Buckalaw, the enterprising proprietors of the Fulton Market, are installing what will be one of the finest cold storage plants on the Pacific coast. John Peck of the Pioneer Truck company has just moved a carload of machinery, etc., from the depot, while carpenters and other workmen have been building and excavating for the large rooms necessary for the plant. The power will be furnished by a large tea horse electric power motor. The machinery is being installed by Engineer H. H. Henley of the Vulcan Iron Works of San Francisco, the latter firm supply the equipment for the plant. Bayless & Buckalaw certainly show their abiding faith in Tucson, but is just such business enterprises that succeeds financially in the commercial world.

District Court.
Judge Davis rendered several decisions today in cases tried before the court some time ago. The following is the record for yesterday:

In the case of Frank Dyeart vs. the board of supervisors of Graham county, a mandamus proceedings for back salary, judgment for full amount was rendered the plaintiff.

In the case of B. M. Jacobs vs. the board of supervisors of Pinal county, similar action as above, judgment was rendered for plaintiff for full amount.

In the case of E. O. Stratton vs. the board of supervisors, similar case as preceding, judgment was rendered in favor of plaintiff for full amount.

In the case of F. J. Worth vs. Marie Rodriguez, an action to quit title to property in Tucson, judgment was rendered for plaintiff.

In the case of W. P. Woods vs. J. W. Payne, the motion for a new trial was denied.

A Successful Musical.
Seldom if ever has Tucson seen so appreciative an audience as met at Hotel San Angustine Tuesday evening to listen to Miss Elizabeth Y. Allen's pupils in their concert work. Each number was a pleasant surprise and the friends of Miss Allen with one voice praise her magnificent work, and this city is to be congratulated that it has been so fortunate in having an instructor of music with such ability. The stage settings were perfect, an abundance of flowers being used in the decorations. Pretty costumes added to the beauty of the scene. The concert was a musical and social success.

Notice to Parents.
A summer school will be opened in the old school building, East Congress street, June 5, 1899.
Second and sixth grades inclusive will be taught.
