NAVAJOS SEEK NEW LAND FOR THEIR DISTRICT

Privately Owned Property on Reservation and Added Acres Asked
HAGERMAN IS ABSENT
Ashurst Objects to Transfer of State Land to U. S. Government

LEUPP, Ariz., April 27—(AP)—Navajo Indians of the Leupp reservation made formal request today for the purchase of the state committee of Indian affairs for 1,000,000 or at least 500,000 more acres of land.

Senator Henry F. Ashurst of Arizona served notice today he opposed to transfer of one square inch of state lands to the federal government.

The request was for average 100,000 acres of land, including 50,000 acres and in addition to half a million acres of state land within the reservation boundaries, which the Indian department has been unable to obtain by exchange.

The names of H. J. Hagerman, special commissioner to the Navajos, although he was not present, accompanied a resolution which was introduced when a committee member demanded "who is he?"

Land Needed
J. E. Miller, superintendent of the Leupp reservation, told the committee "In my opinion, the Navajos need more land than the 2,000,000 acres within the reservation boundaries."

The Leupp area inside the reservation boundaries, which he referred to as the "Indian land," is a wooded land, the private owned and reserved lands are scattered elsewhere in checkerboard fashion.

Five Indian villages corroborated the superintendent's testimony and added their personal pleas for additional land.

"I am positively and absolutely opposed to the transfer of one square inch of state land to the government," Senator Ashurst said today.
