

# Pocket Fire

July 13, 2026

27,393 Official Acres

862 personnel

76% contained

As of 7 AM, State Route 89A is open in both directions. Crews continue chipping along the 89A corridor through proposed fuel breaks west of the highway, as well as being available for initial attack.

Today, firefighting personnel continue to patrol and reinforce containment lines, with all containment lines holding. Crews are chipping where needed, as well as being available for initial attack. Firefighters are prepping and chipping fuels to greatly reduce fire intensity should it reach those areas.

In the West Fork of Oak Creek Canyon, the fire continues to hold within existing retardant lines, but hotspots remain. Little to no rain fell in the areas with the most heat. Aerial resources continue to patrol and monitor the area.
