

Pocket Fire
June 25, 2026
1,189 Acres
927 personnel
0% contained

More burning operations are planned for today, weather permitting.

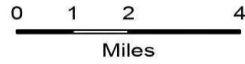

Last night crews successfully burned on the north end of the fire, proactively building a catcher's mitt since it is impossible for firefighters to do direct attack on this incident.

Canyon Closed

On the Pocket Fire, the extremely tough terrain is preventing firefighters from manually checking the edge. IR flights have been made, but managers are not yet satisfied that any edge can be declared contained.
