

ORTHOPEDICS | SPORTS MEDICINE | PODIATRY | NEUROLOGY  
SPINE | INTERVENTIONAL PAIN

# The future of orthopedic and spine care: **Here. Now.**

Experience it for yourself at  
the new Adena Orthopedic  
and Spine Institute.

Antibacterial walls in the operating rooms that kill bacteria on contact. Concierge patient services that rival a luxury hotel. 38 providers who all have your back (and all of your other bones and joints, too). It may sound like a medical facility from the future—but it's right now, right here in our region, at our new Adena Orthopedic and Spine Institute. Because you shouldn't have to drive far to experience a true health care destination.

**ADENA ORTHOPEDIC AND  
SPINE INSTITUTE**  
**Now Open**
