

PUBLIC NOTICE

INTENT TO APPLY HERBICIDES SELECTIVE VEGETATION CONTROL

Vermont Electric Cooperative, 42 Wescom Road, Johnson, Vermont 05656 has been issued a permit from the Vermont Secretary of Agriculture to apply herbicides. All herbicides will be applied by ground-based, hand-held equipment. This notice constitutes a notification to residents along the right-of-way that water supplies and other environmentally sensitive areas near the right-of-way should be protected from spray and that it is the resident's responsibility to inform the contact person of the existence of a private water supply near the right-of-way. The contact person at VEC is Sara Packer, Vegetation & Right-of-way Management Program Manager, (802) 730-1104, or 1-800-832-2667 (ext. 1104). Further information may also be obtained from the Vermont Agency of Agriculture, Food & Markets, Division of Plant Industry, 116 State Street, Montpelier, Vermont 05620-2901, telephone (802) 828-1732.

Operations will commence on or about June 29, 2026, using one or more of the following herbicides: Escort® XP or Patriot® (metsulfuron methyl), Krenite® S (fosamine ammonium), Milestone® (aminopyralid) Arsenal® Powerline™ or Polaris® (imazapyr), Vastlan® (triclopyr choline) and Garlon® 4 Ultra (triclopyr).

Maintenance will be conducted on transmission lines in the following towns:
