

An educational event on organic gardening, soil health, and tree care.

*Presented by
Oakwood Cemetery Arboretum.*

Featuring: Howard Garrett

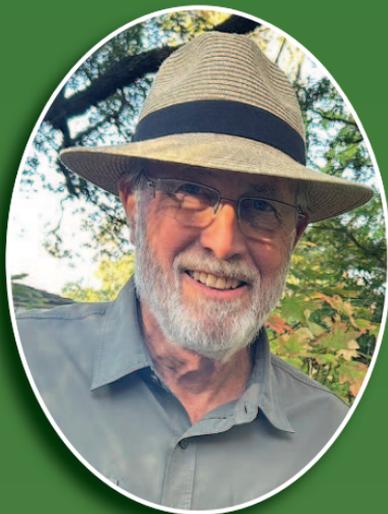

"The Dirt Doctor"

Pioneer of organic gardening and soil health.
Questions can be asked after the presentation.

Open to the public. Free Admission.

Thursday, March 5, 3pm-5pm

Lee Lockwood Library & Museum
2801 W. Waco Dr. Waco

His work includes research on planting techniques, tree health, use of native and well adapted introductions and water saving solutions. Organic projects in the studies have realized 40-50% cost savings in water use. He is currently helping hemp growers with organic soil detox and non-toxic growing techniques.

His books cover many subjects related to organic gardening and healthy living. He produces the popular web site DirtDoctor.com and speaks across the country to various events, clubs and businesses.
