

113 Years Strong: Western Home Continues to Put People First

Growing Together

From Cedar Falls to Jesup and Madrid to Reinbeck, Western Home Communities is building a network of caregivers who grow together and grow from within. The Learn & Earn program is the foundation of this success, preparing today's employees to become tomorrow's leaders in care.

"By developing talent from within, we're not just filling jobs — we're shaping careers and strengthening communities," says CEO Kris Hansen.

Western Home Communities, founded in 1912, is a charitable Christian service organization providing a range of retirement living and care options across multiple locations. Its flagship campus in Cedar Falls, Iowa, is recognized as one of the nation's largest retirement communities.
