

SULLIVANS' GRIEF SHARED BY OTHER MOTHERS OF NAVY

Parents Had Prior Intimation Something Had Happened to Five Boys.

Navy mothers Thursday shared the grief of Mr. and Mrs. Thomas F. Sullivan, 98 Adams street, whose five sons have been reported missing in action in the service of the United States navy.

Mrs. Charles Turner, who resides on Grant highway, just east of Waterloo, a navy mother whose son, Keith, also has been reported missing in action, was among the many who came to console Mrs. Sullivan.

Mrs. Turner and Mrs. Sullivan, who were girlhood friends, were charter members of Yarnell chapter 66, Navy Mothers Club of America, when the club was organized in 1938.

Had Previous Hint. Mr. and Mrs. Sullivan had been somewhat prepared for the report that their boys were missing, Mrs. Sullivan said Thursday.

On Jan. 5 a navy mother had informed her that her son had written to her saying, "Wasn't it too bad about the Sullivan boys?"

Paul Tharp, a member of the navy, who is now home on a 30-day furlough visiting his parents, Mr. and Mrs. M. F. Tharp, 210 Summit avenue, and his grandparents, Mr. and Mrs. Herman Becker, 223 Logan avenue, had visited briefly with the Sullivan boys five days before their ship, the cruiser Juneau, sank Nov. 14.

Mrs. Sullivan said that the ship upon which Paul was stationed had drawn near the Juneau, Paul asked if any Waterloo boys were aboard. He was informed that the five Sullivan brothers were on the ship. He engaged in a few words of conversation with them before the two ships drew apart.

Paul visited the Sullivan home Wednesday evening. Mr. and Mrs. Sullivan are carrying on in the spirit of their five brave sons. Mr. Sullivan, a freight conductor on the Illinois Central railroad, aware that the government needs all transportation employes on the job to keep war materials moving, has been going out on his run as usual.

Christening Next Month. Mrs. Sullivan will christen a naval vessel to be launched at the Commercial Iron works, Portland, Ore., sometime next month. Her husband will accompany her to Portland.

In accepting the invitation to christen the ship, yard officials at Portland said Mrs. Sullivan expressed hope that the vessel will "help win the war, as win we shall."

A telegram was received at the Sullivan home from Henry A. Wallace, vice president of the United States, praising the "marvelous spirit" that Mr. and Mrs. Sullivan have displayed. Numerous other messages of condolence from all over the United States continued to pour into the Sullivan home Thursday.

Newspaper men from Chicago were in Waterloo Thursday, photographing the Sullivan family home and the schools that the boys attended.

PATIENT RECOVERING. Mrs. Albert Peters, Buckingham, Ia., is a patient at St. Francis hospital, recovering from a major operation.

Three Brothers in Army

PFC. ALLEN D. PENN (above left), son of Mr. and Mrs. Lester Penn, 316 Euclid avenue, is visiting his parents, while on a 15-day furlough from his duties as a member of the coast artillery stationed at San Francisco.

CORP. LESTER LA VERN PENN, 28, (above center) Bakersfield, Cal., airframe; and PVT. FRANK L. PENN, 21, (above right) who notified his parents recently that he had left New Orleans, La., for overseas duty.

Frank was the most recent of the boys to be inducted, having gone in Sept. 4, 1942. Corp. Lester Penn enlisted July 15, 1942, while Pfc. Allen Penn, who enlisted Oct. 10, 1941, is enjoying his first furlough in more than 15 months.

Heating Season to Be Half Over Saturday Night

The 1942-43 heating season will be half over by Saturday evening. That statement was made Thursday by Ralph F. Winterbottom, heating engineer, of Winterbottom Supply company, who keeps running records of heating needs.

These heating needs are computed in "degree days" or the number of degrees the day's average is below 65 degrees.

Average 7,000 Degree Days. Up to Tuesday night, the total number of degree days this winter was 3,314, nearly half of the 7,000 degree days in an average winter, Winterbottom said.

By Saturday night the total will have reached the halfway mark of 3,500 degree days, Winterbottom believes.

So if you still have on Saturday night half of your winter's supply of fuel, you should come out all right.

January Milder This Year. This month has been much milder than January, 1942, in some degree balancing off last month which was much colder than the previous December, according to Winterbottom's records.

He explains degree days this way: On a day when the minimum temperature is 40 degrees and the maximum temperature is 50 degrees, the average is 45, or 20 less than 65; so the entry is 20 degree days.

Officers of Our Savior's Lutheran to Be Installed. Officers of Our Savior's Lutheran church will be installed at the morning service Sunday, it was reported Thursday by Rev. E. A. Hoefler, pastor.

Elected at an annual meeting Monday night in the church, they are Richard Lorenzen, trustee for two years; Fred Buss, trustee for one year; Wesley Sommers, deacon for one year, and L. H. Bond, re-elected secretary-treasurer.

John Baker was elected delegate to the Iowa district convention of the American Lutheran church next summer. Ray Hunemiller is alternate.

The church income last year was \$2,294.41 and the expenditures \$2,102.01, and the 1943 budget is estimated at \$2,000.

Rev. Mr. Hoefler said that 59 confirmed members had been added to the congregation during 1942 and that the baptized membership is now 170.

4 Conscientious Objectors in Food Needs Experiment

Champaign, Ill. (AP)—Four conscientious objectors Thursday began a program of vigorous work and exercise in the simulated temperature and humidity of the tropics and desert to enable University of Illinois scientists to study the food needs of troops in the Solomon islands and in Africa.

Prof. H. H. Mitchell, chief of the division of animal nutrition, said the quartet would be fed controlled diets and all the food they consume would be recorded.

He declared the men will undergo "quite an ordeal" during the experiment which will continue until Aug. 1 under a contract between the University of Illinois and the federal office of scientific research and development.

The quartet volunteered for the experiment and came here from the civilian service camp No. 18, Denison, Ia., maintained by the Mennonite church.

Pythian Sisters Install Officers. Cedar Falls—Mrs. Edward Obel was installed most excellent chief of the Pythian Sisters at the annual ceremony Wednesday evening in Pfeiffer hall.

Other officers installed were: Mrs. Dick Nordman, excellent senior; Mrs. Forrest Thompson, excellent junior; Mrs. Will Morgan, manager; Mrs. John Hildre, mistress of records and correspondence; Mrs. Lois Hovey, mistress of finance; Mrs. Raymond Morrison, protector; Mrs. Clifford Parry, guard; Mrs. E. M. Bowman, past chief.

Installing officers were Mrs. E. A. Randall, installing chief; Mrs. G. T. Fuller, grand censor, and Mrs. Will Morgan, grand manager.

At the close of the evening refreshments were served by Mrs. Walter Markussen, Mrs. Fred Stevens and Mrs. John Birdsall.

\$4,000 Blaze in Reinbeck Garage

Reinbeck, Ia. — Fire starting in an automobile on which the gasoline line was being blown out caused damage estimated at \$4,000 at the Reinbeck Motor company here about 8:30 a. m. Thursday. The Motor company is the local Ford dealer.

W. N. Mitchell, proprietor, said only slight damage was done to his own cars and cars of patrons stored there.

The car being serviced was owned by John Stark, farmer south of Reinbeck, and was completely destroyed.

The garage is 72 by 178 feet of frame construction, covered with stucco, and is owned by Mrs. Ben Lauterbach, sr., of Reinbeck.

The Grundy Center fire department was called as a precaution in case the fire could not be controlled by the Reinbeck department alone, and responded.

MANY NEVER SUSPECT CAUSE OF BACKACHES. This Old Treatment Often Brings Happy Relief.

Many sufferers believe nagging backaches quickly, once they discover that the real cause of their trouble may be tired kidneys.

The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. They help most people pass about 3 pints a day.

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backaches, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with a burning and stinging sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

Interpreting War Moves

By GLENN BABB Associated Press Staff Writer

Hitler is carrying on a gigantic, ruthless campaign to mobilize the economic resources of the entire continent, including labor, as part of his preparations for holding his fortress of Europe against the anticipated allied blows of 1943.

Daily it becomes more evident that the boast of the globular Goering—that the Germans will eat no matter who goes hungry—applies not to food alone but to all wealth and the means of producing wealth.

Hitler will stop at nothing in this campaign; he will pauperize all Europe if need be to get what he requires for his war machine.

The Fuehrer's meeting with his stooge in charge of Rumania, Marshal Antonescu, announced by Berlin Wednesday, was part of this campaign.

One reason Antonescu was summoned to headquarters no doubt was to receive orders to put down the rising clamor against the spilling of so much Rumanian blood in Russia and to make sure that the flow of Rumanian manpower into the eastern front remained steady.

For that purpose Keitel and Zeitzler sat at the conference table. But probably the most important men there were Doctors Funk and Ciodius, whose function is to supply the wealth that keeps the armies going.

Just what Hitler requires of Rumania was not disclosed; perhaps more oil or more grain.

That retreat in the Caucasus, abandoning the bright hopes of 1942 of gathering in the oil of Grozny and Baku, poses a grave new fuel problem.

The anticipated yield from the

grain fields of the Ukraine has become a bigger question mark. The Germans may not even be in possession of those fields when next harvest time comes.

Hitler may have demanded that Rumania, already sorely bled for the Russian war, contribute workers for the reich's labor-hungry industries.

Whatever he asked it was connected with his colossal economic mobilization.

Hitler's search for labor is made more desperate by the claims of his

army on German manpower. A Stockholm dispatch reported Thursday that a military commission is touring the reich to comb out perhaps one or two million men hitherto rated unfit for military service.

Heavy losses in Russia must be replaced, the demands of the second front already opened in the Mediterranean area and of the preparations against a third front in the west must be met.

At the same time war industry

must be expanded and accelerated to an unprecedented degree in the attempt to match the production of the United States, the British Empire and Russia.
