

Iowa Senator's Declaration addressing Property Rights and the CO2 Pipeline

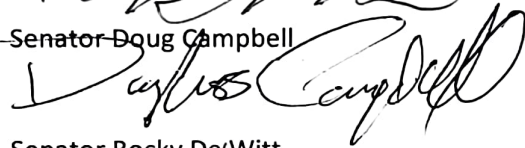

The threat of eminent domain has loomed over many land owners of Iowa for the past 3+ years, from a conditional permit granted for a carbon sequestration pipeline crossing Iowa, South Dakota and North Dakota, to a private company, seeking private (entirely subsidized) profits. The people of South Dakota emphatically stated that eminent domain will never be granted for this pipeline to cross South Dakota, and it is past time for Iowa to do the same.

The following Iowa Senators are committed to holding a vote for HF639, as passed this session by the Iowa House. We believe addressing eminent domain is more important than the budget or any other priority for the 2025 session and pledge to vote against any remaining budget bill until a floor vote occurs on the clean HF639 bill.

Senator Kevin Alons

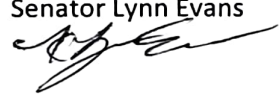

Senator Doug Campbell

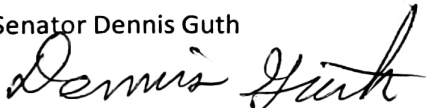

Senator Rocky DeWitt

Senator Lynn Evans

Senator Dennis Guth

Senator Mark Lofgren

Senator Mike Pike

Senator Dave Rowley

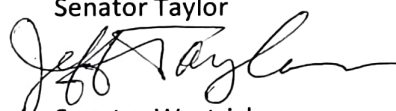

Senator Sandy Salmon

Senator Sires

Senator Taylor

Senator Westrich
