Fail Notes

Chapter 67.11(2) Facility Requirements e.

e. Ceilings, walls, floors, furniture, and play equipment shall be constructed to lend themselves to efficient cleaning and sanitizing. Such surfaces shall be kept in good repair and maintained so that they are substantially impervious to moisture. Floors and walls to a height of four feet shall have finished IAC 6/16/10 Agriculture and Land Stewardship[21] Ch 67, p.9 surfaces. Upholstered furniture or carpeting shall not be permitted in that portion of the facility to which dogs have access.

[Walls are constructed of wooden panels and must be sealed to a height of 4' so that they are substantially impervious to moisture.]

6. Storage

VETERINARY CARE

Yes No N/A

Fail Notes Chapter 67.3(3) Veterinary Care f. *f. If during an inspection of a facility the department finds an animal which appears to have a physical condition or disease which, in the opinion of the inspector, requires a veterinarian's attention, the department may order that the licensee subject the animal to a veterinarian's examination at the licensee's expense. The department may require the licensee to submit written proof of the veterinarian's examination and results of the examination within a time frame set by the department.*

Animal Welfare Inspection Form

Footnote 1

Notes:

Concrete floors and wooden wall surfaces need to be sealed or painted.

Footnote 2

Notes:

Kennels must be cleaned daily and sanitized no longer than 2 week intervals. The fact that it is winter and surfaces may be more difficult to clean does not mean it is OK to wait for warmer weather to clean and disinfect.

Footnote 3

Notes:

A fresh supply of potable clean water provided in a sanitary manner. This does not include a mud puddle or snow is acceptable.

Footnote 4

Notes:

One person to care for over 150 dogs (adults + puppies) is not adequate to proper care for the welfare of the animals in accordance with state regulations and the Animal Welfare Act.

Footnote 5

Notes:

One female had an injury – wound on back approx. 3" x 3" that needs to be looked at by a veterinarian

Footnote 6

Notes:

It is very difficult to determine body condition scores on this heavy coated breed of dog, but during my inspection there were no dog dishes with any feed and all the water buckets were either froze or empty
