

CITY TO SUPPLY PICKUP AGAIN IN DRIVE FOR PAPER

Council Votes to Assist Scouts Feb. 5; Salvage to Be Centralized.

City trucks will be used again to pick up waste paper in the collection by boy scouts here on Feb. 5, it was decided by the Waterloo city council Monday night.

W. G. Fulton, area scout executive, who made the request to the council, said that from 40 to 50 tons of waste paper are expected to be collected.

Instead of having the paper deposited by each householder at the curb, necessitating a house to house collection by the trucks, as in the last collection, the paper is being gathered at central collection centers, so that only 100 stops will have to be made by the trucks. Fulton explained to the council.

Three to Meeting. The council voted to send Dr. Richard W. Driver, city health physician; Dr. F. Harold Entz, venereal disease clinic director; and Fred Sporie, city sanitary inspector to attend a seminar to be conducted by the Iowa State department of health at Des Moines on March 8-10.

In his report to the council on his recent trip to Chicago, where he represented Waterloo at the United States conference of mayors, Mayor Ralph Slippy said the conference stressed the necessity for cities to have plans ready for federal works as part of postwar adjustment.

The conference emphasized any delay in preparing plans for such postwar government work, might result in serious problems.

As these projects will be set up only to take care of conversion of wartime to peacetime activities, the time for taking advantage of any available funds will be limited.

May Oppose Issues. It was also pointed out that whereas the public was patently gaily buying bonds for winning the war, the public may not be so enthusiastic in floating bond issues for public works.

It was agreed at the conference, Mayor Slippy reported, that cities should not ask for deferment of city employees from the armed forces. The consensus at the conference was that every effort should be made for the war and that cities should get along as best they could.

The council Monday voted formal acceptance of the federal grant of \$700,000 for the municipal airport site, a procedure that could not have been attended to before because acquiring title to the land was a prerequisite to official acceptance of the grant.

Try This Old Home-Mixed Cough Relief. Surprising!

Child Could Make It. No Cooking. Big Saving. You may not know it, but in your own kitchen, you can easily prepare a really surprising relief for coughs due to colds. It's old-fashioned—your mother probably used it—but for real results, it can't be beaten.

First, make a syrup by stirring 2 cups granulated sugar and one cup of water a few moments, until dissolved. Or you can use corn syrup or liquid honey, instead of sugar syrup. No cooking needed. It's no trouble. Then get 2 1/2 ounces of Pinex from

any drugist. This is a special compound of proven ingredients in concentrated form, well known for prompt action in throat and bronchial irritations.

Put the Pinex into a pint bottle, and add your syrup. Thus you make a full pint of really splendid cough syrup, and you get about four times as much for your money. It never spoils, and children love its pleasant taste.

And for quick relief, it's a wonder. It loosens the phlegm, soothes the irritated membranes, eases the soreness, and makes breathing easy. If not pleased, your money will be refunded.

PARTY CAUCUSES ARE INDEFINITE

Republican Committee to Set Dates This Week.

Neither the Republican nor the Democratic central committee for Black Hawk county has yet named dates for the party precinct or county caucus, leaders said Tuesday, but each was expected to take action within the next two weeks.

The precinct caucuses must be held prior to Mar. 15, since delegates must be selected to the county conventions, scheduled for that date.

The county convention in turn names delegates to the state convention, Mar. 31, when delegates are named to the national convention.

Ralph W. Travis, Republican chairman, said he expected to call a meeting of the central committee late this week to set a date for the precinct caucuses.

The Democrats have an additional problem—the naming of a chairman to succeed Ray R. Reed, who resigned that post and County Treasurer Anna M. Decker last year. Mrs. Mary Marsh, Cedar Falls is vice chairman.

TREASURER CLARIFIES STORED AUTO RULES

Only those cars kept continuously in storage throughout 1943 were subject to personal property tax Jan. 1, 1944, according to instructions from the state tax commission, County Treasurer Anna M. Decker said Tuesday. If cars placed in storage this year are kept in storage through the year, they are subject to personal property tax Jan. 1, 1945.
