

"The Lee County GOP respects everyone's right to free speech and is supportive of constitutionally protected peaceful protests even when we don't agree with the intent or messaging.

Unlike today's protesters, we support both President Donald J. Trump and the world's smartest, most successful businessman looking for fraud, waste, and abuse in our government at no charge to the American taxpayer. It is counterproductive to protest any American who would donate so much of their valuable time and talent to assist our great country's government in order to preserve a stable future for our children and grandchildren."

For Liberty,

Mercedes Price Harry
LCREC Chair
