6:15 am

We have already attempted to charge the batteries. They are no good.

We will see you tomorrow.

Thanks

Good Morning, When do you plan on having the unit towed? We will have to have the unit moved pretty quickly as it cant stay where its at. Thank you, Rv doctor

Miranda Rv ... 6:08 am

Hi. Yes. Sorry I had to get a few things done , called tow company I just have to schedule. . I'll get them out there tomorrow.

6:14 am

No problem, we only have units sitting outside the gate for so many days. If you need anything to get it towed tomorrow please let us know.

Miranda Rv ... 6:28 am

I'm gonna. Have them tow it at night to avoid delays. So it's either going to be tonight or tomorrow night.

6:33 am

Ok, if you dont mind just giving us a heads up on which day it will be. Totally understand.

Miranda Rv ... 6:40 am

Will do.

Good Morning Kevin, We need to know what your plan is with the unit, the city only allows so many days with the unit sitting outside the gate or it will be towed. Like I explained last week. Please provide an update. We can recommend a towing company if that's the issue. Thank you, ...

I want my mechanic to get it running. I stoped over there and see it is outside. We fine with my mechanic getting it running. ?! He is coming form Tampa. I would like the back door on it. What is the time schedule for the back door.
